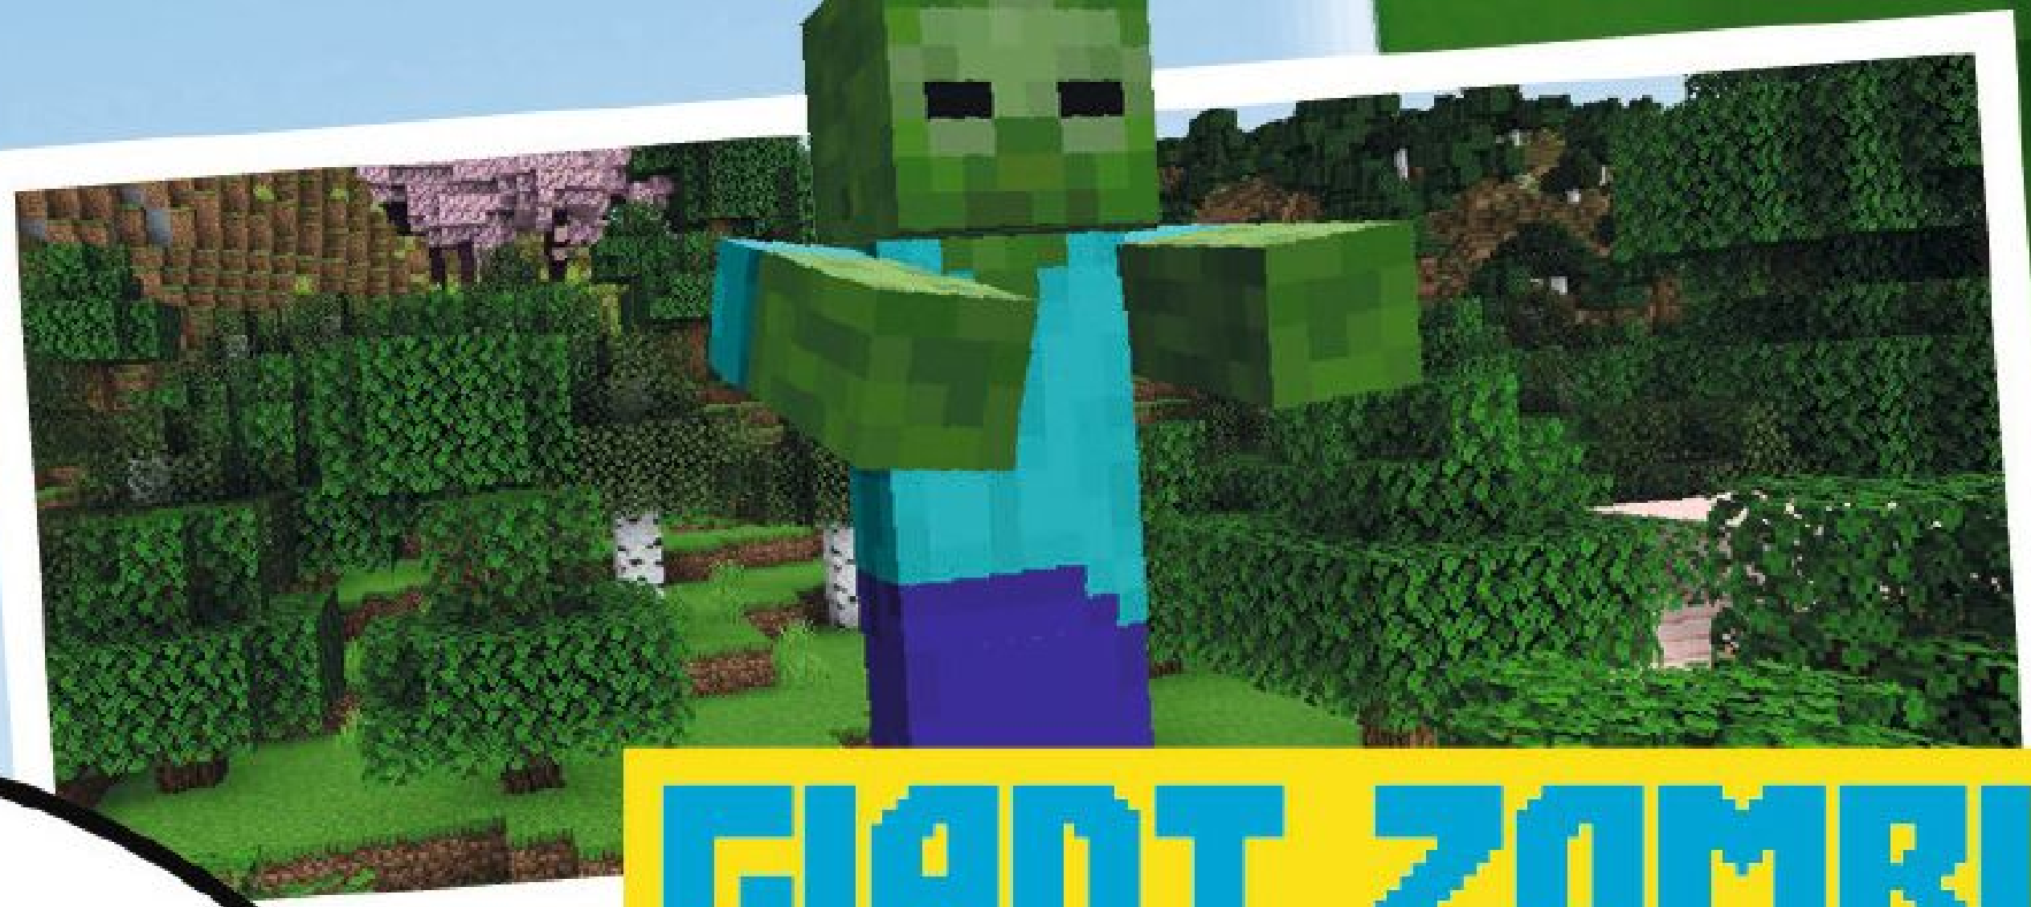
HOW TO FIND MINECRAFT'S RAREST MOBS!

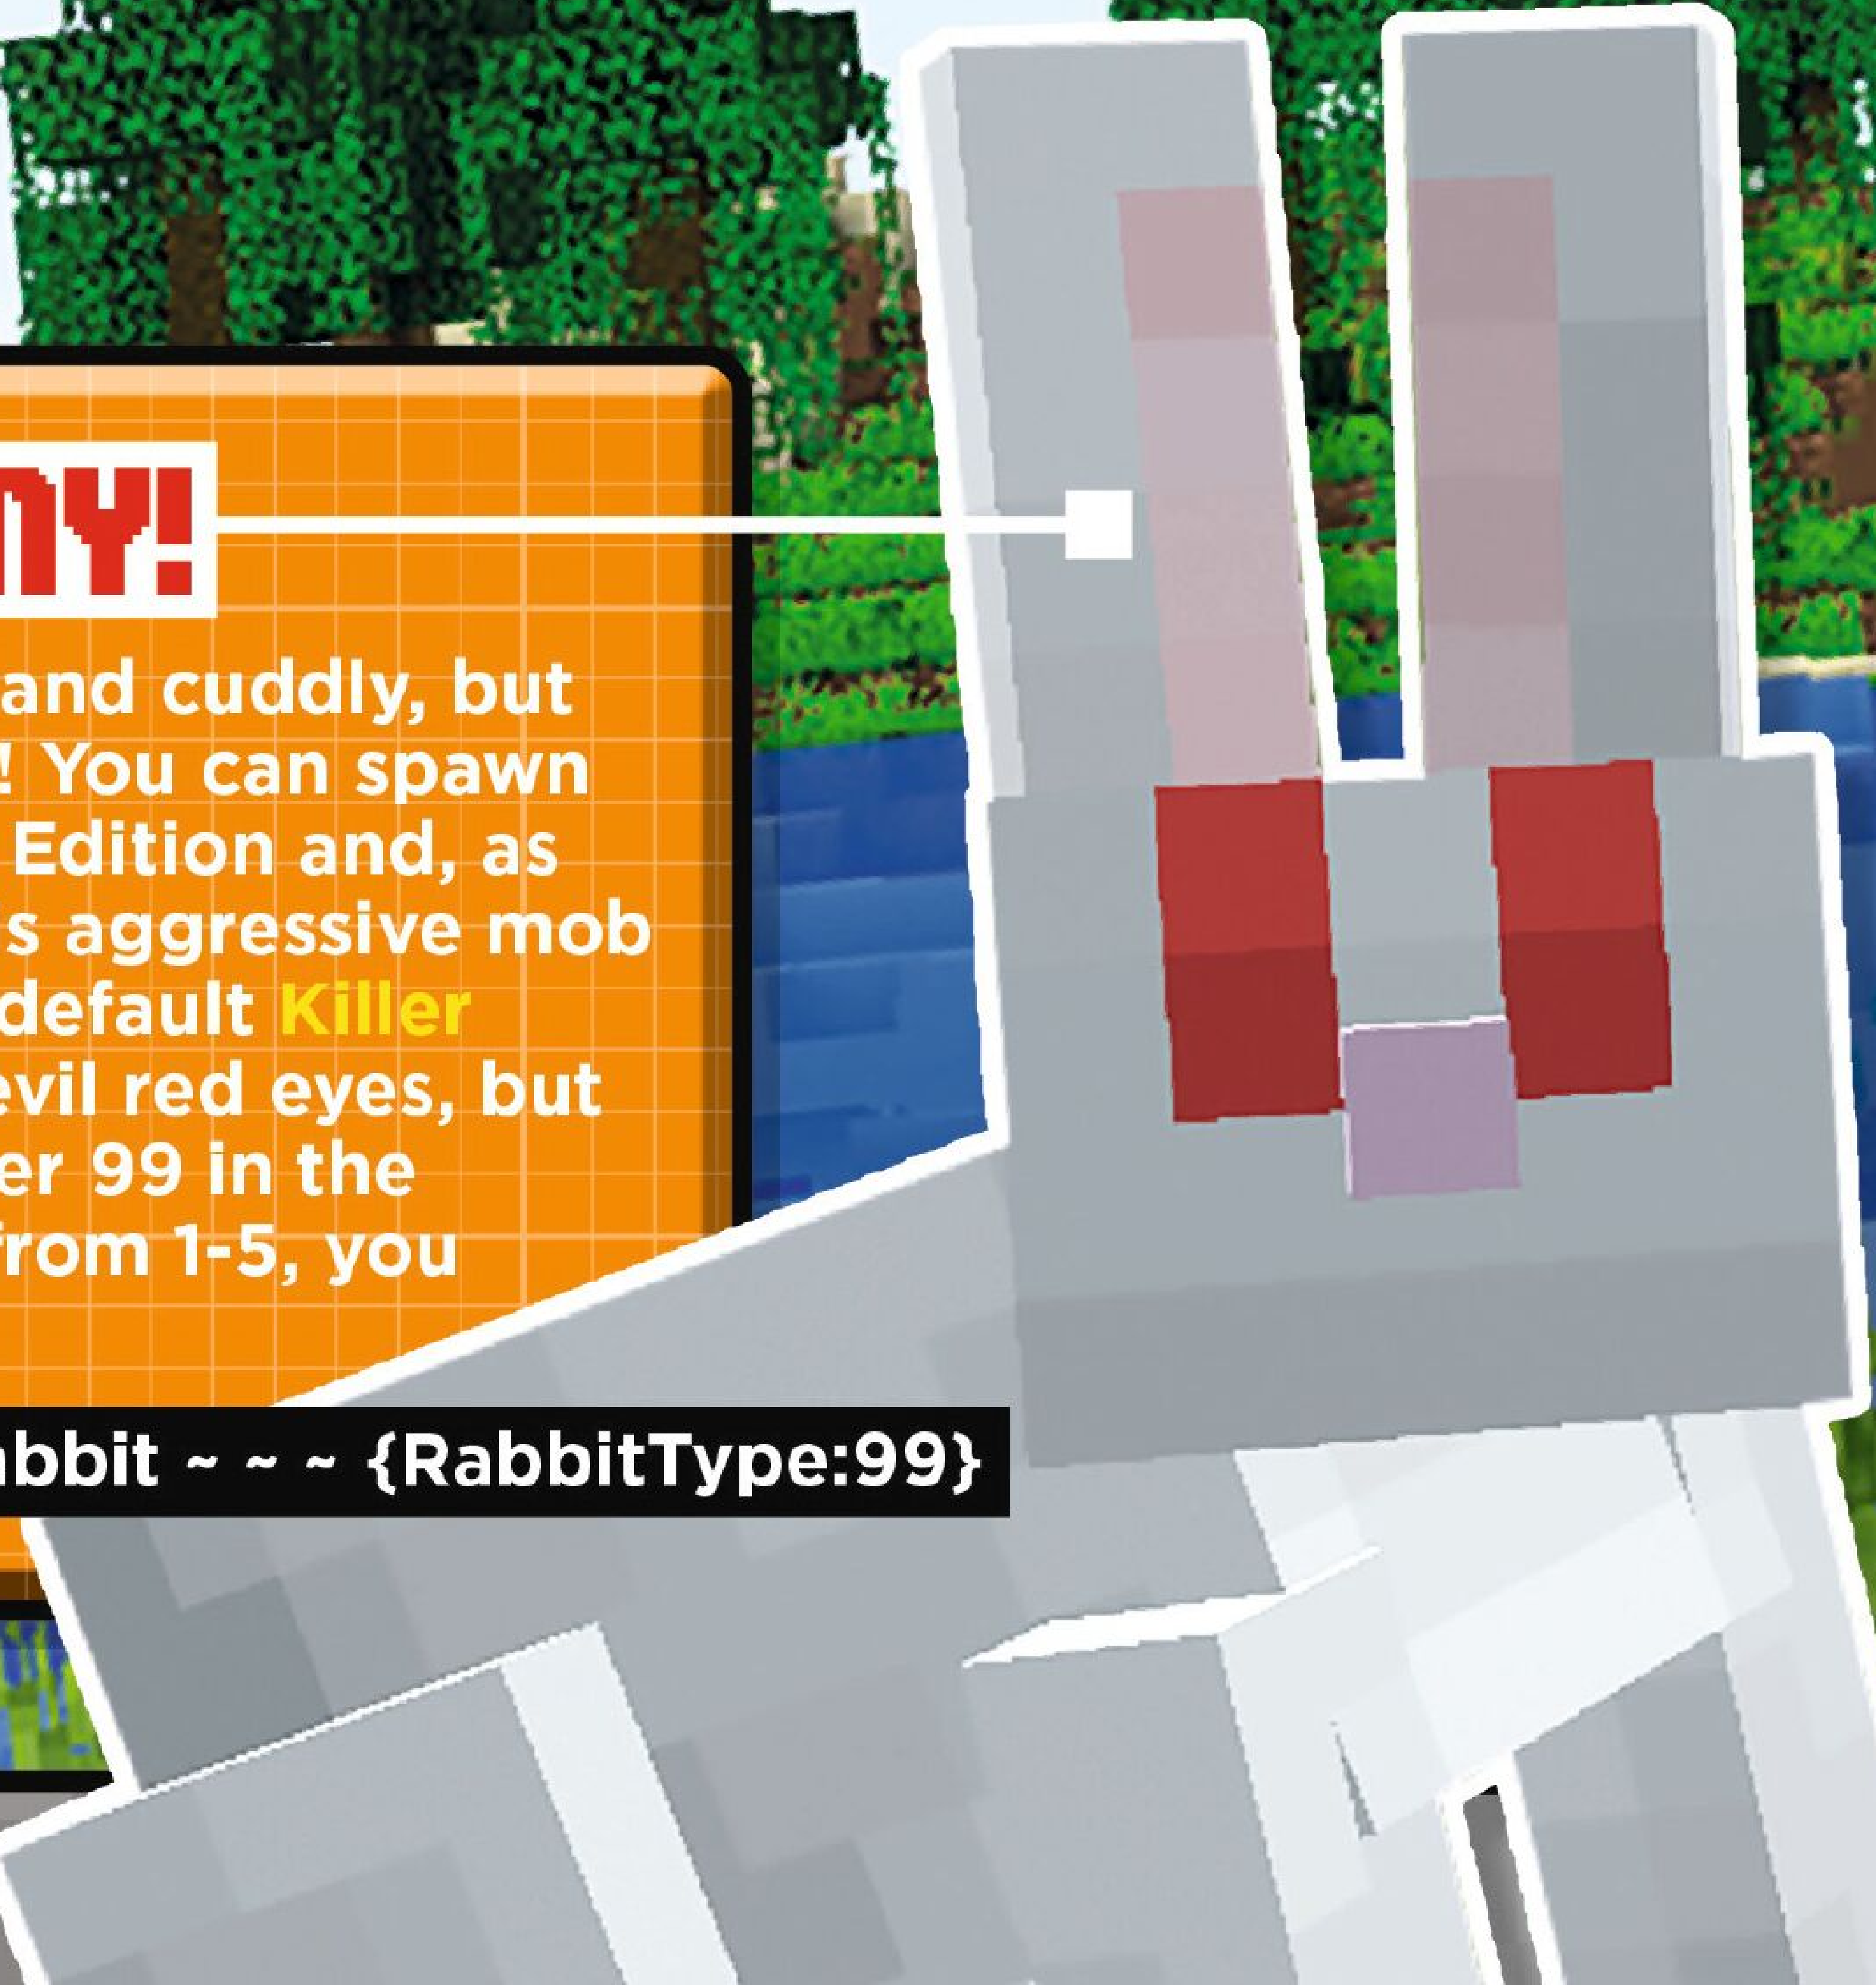
MINECRAFT SECRET MOBS!



GIANT ZOMBIE!

■ This humungous **Zombie** won't spawn naturally in your **Minecraft** world, but it can be summoned in Java Edition! These big beasts don't move, won't do you any harm and don't burn in the sun, so they're a super-cool choice if you want a unique decoration or statue in your world.

COMMAND:
```
/summon giant ~5 ~ ~
```

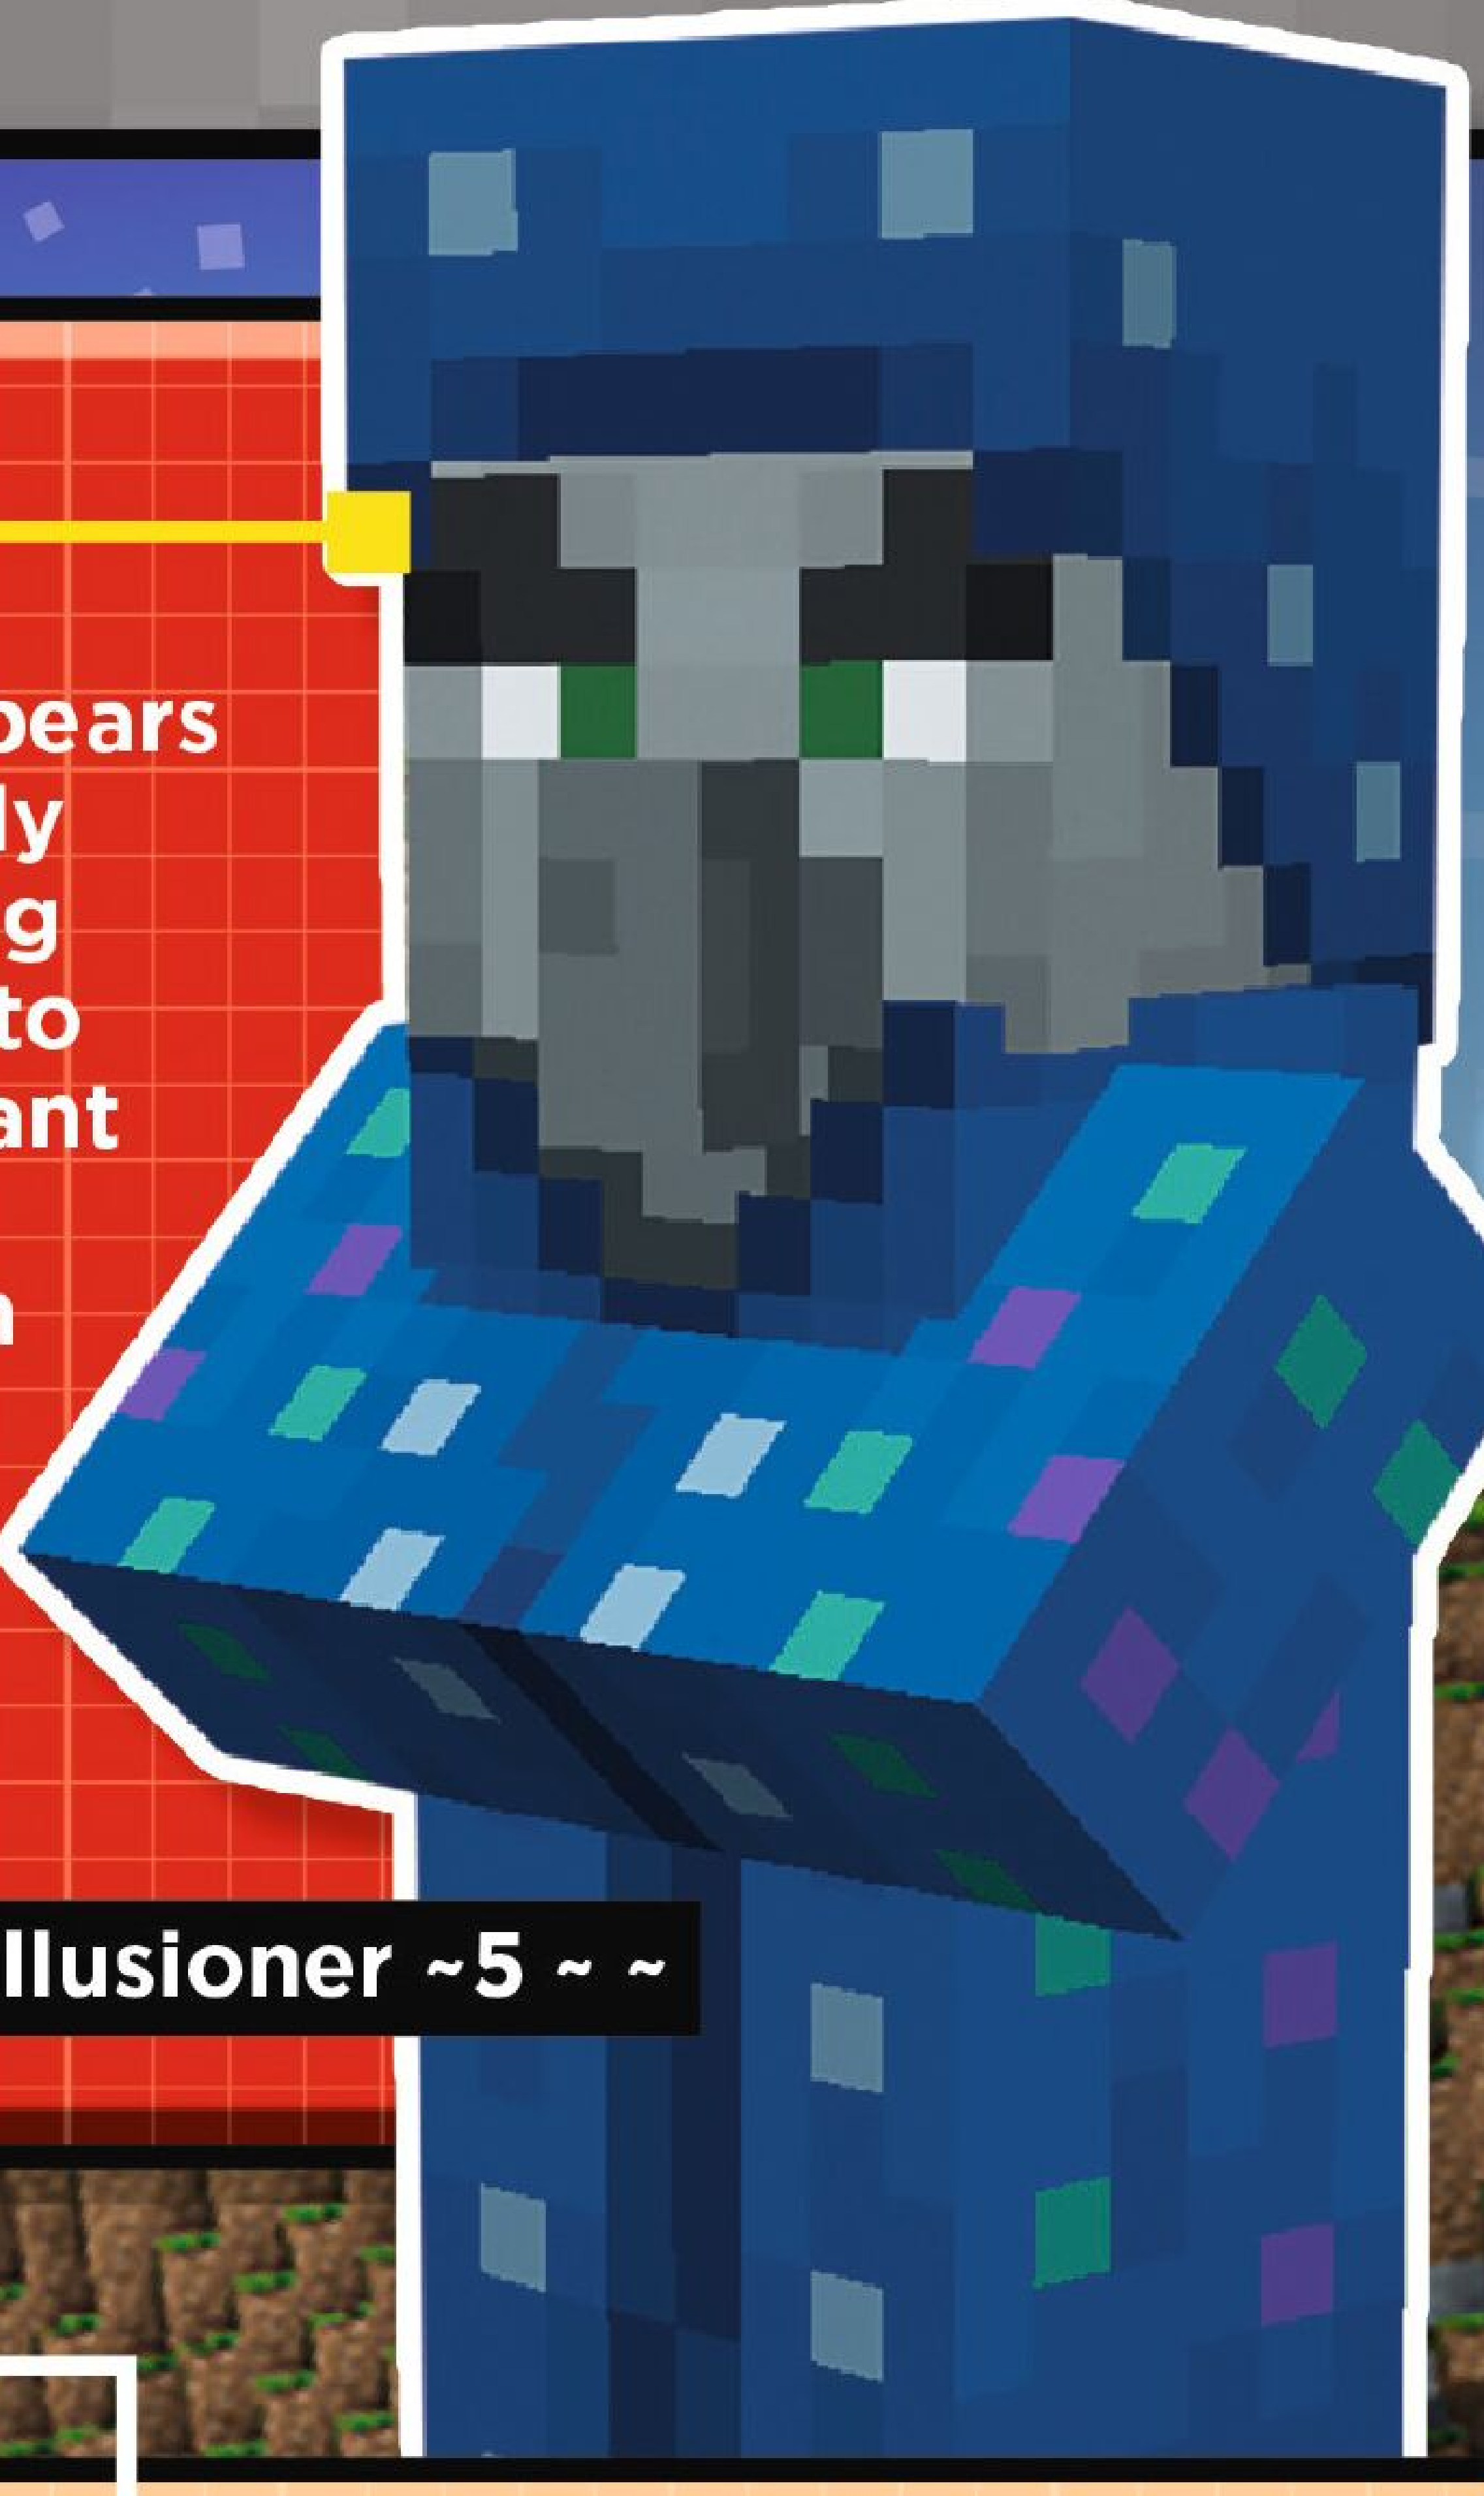


KILLER BUNNY!

■ They might look cute and cuddly, but these bunnies are mean! You can spawn the **Killer Bunny** in Java Edition and, as their name suggests, this aggressive mob will attack players! The default **Killer Bunny** is all white with evil red eyes, but if you change the number 99 in the command to a number from 1-5, you can change its colour!

COMMAND:
```
/summon rabbit ~ ~ ~ {RabbitType:99}
```

ILLUSIONERS!

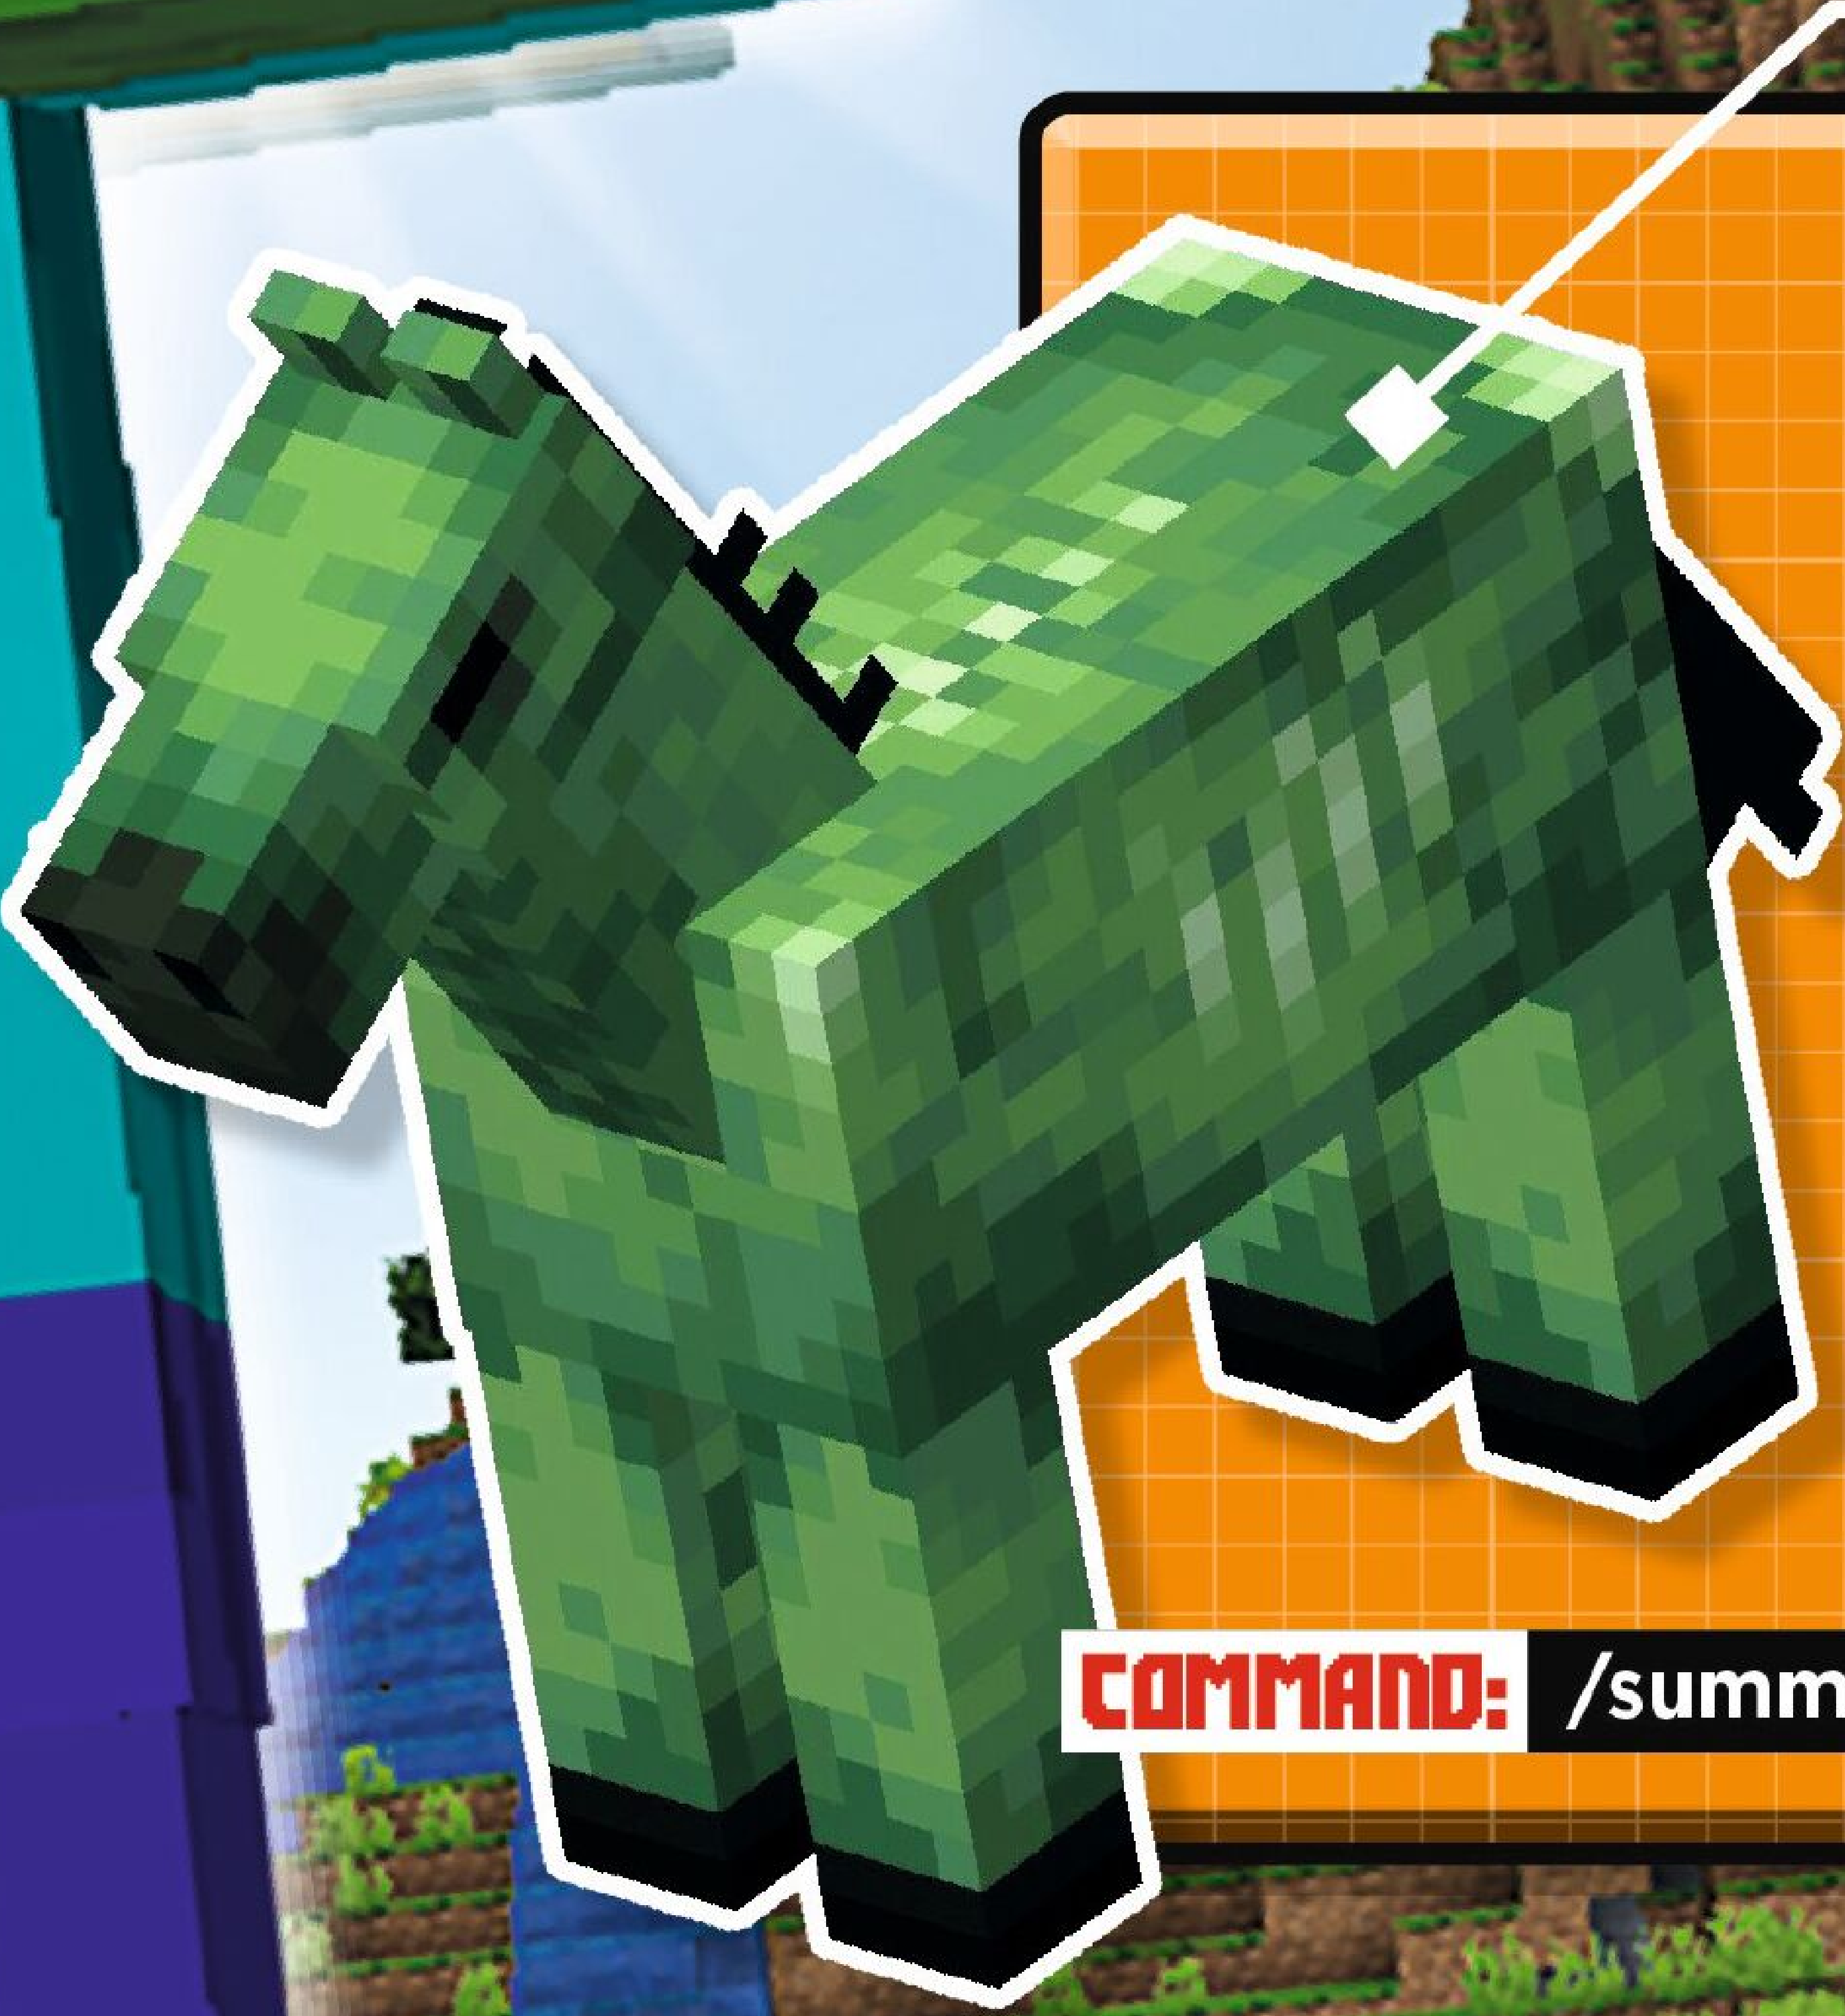


■ Although this spooky Illager variant appears in Minecraft Dungeons, they don't naturally occur in the regular game. If you're playing Java Edition, you can spawn Illusioners into your world – but you might not want to! These bad guys are super-difficult to beat as they can cast a spell of Blindness, follow you through walls, summon clones of themselves, and even turn invisible!

COMMAND:

```
/summon illusioner ~5 ~ ~
```

ZOMBIE HORSE!

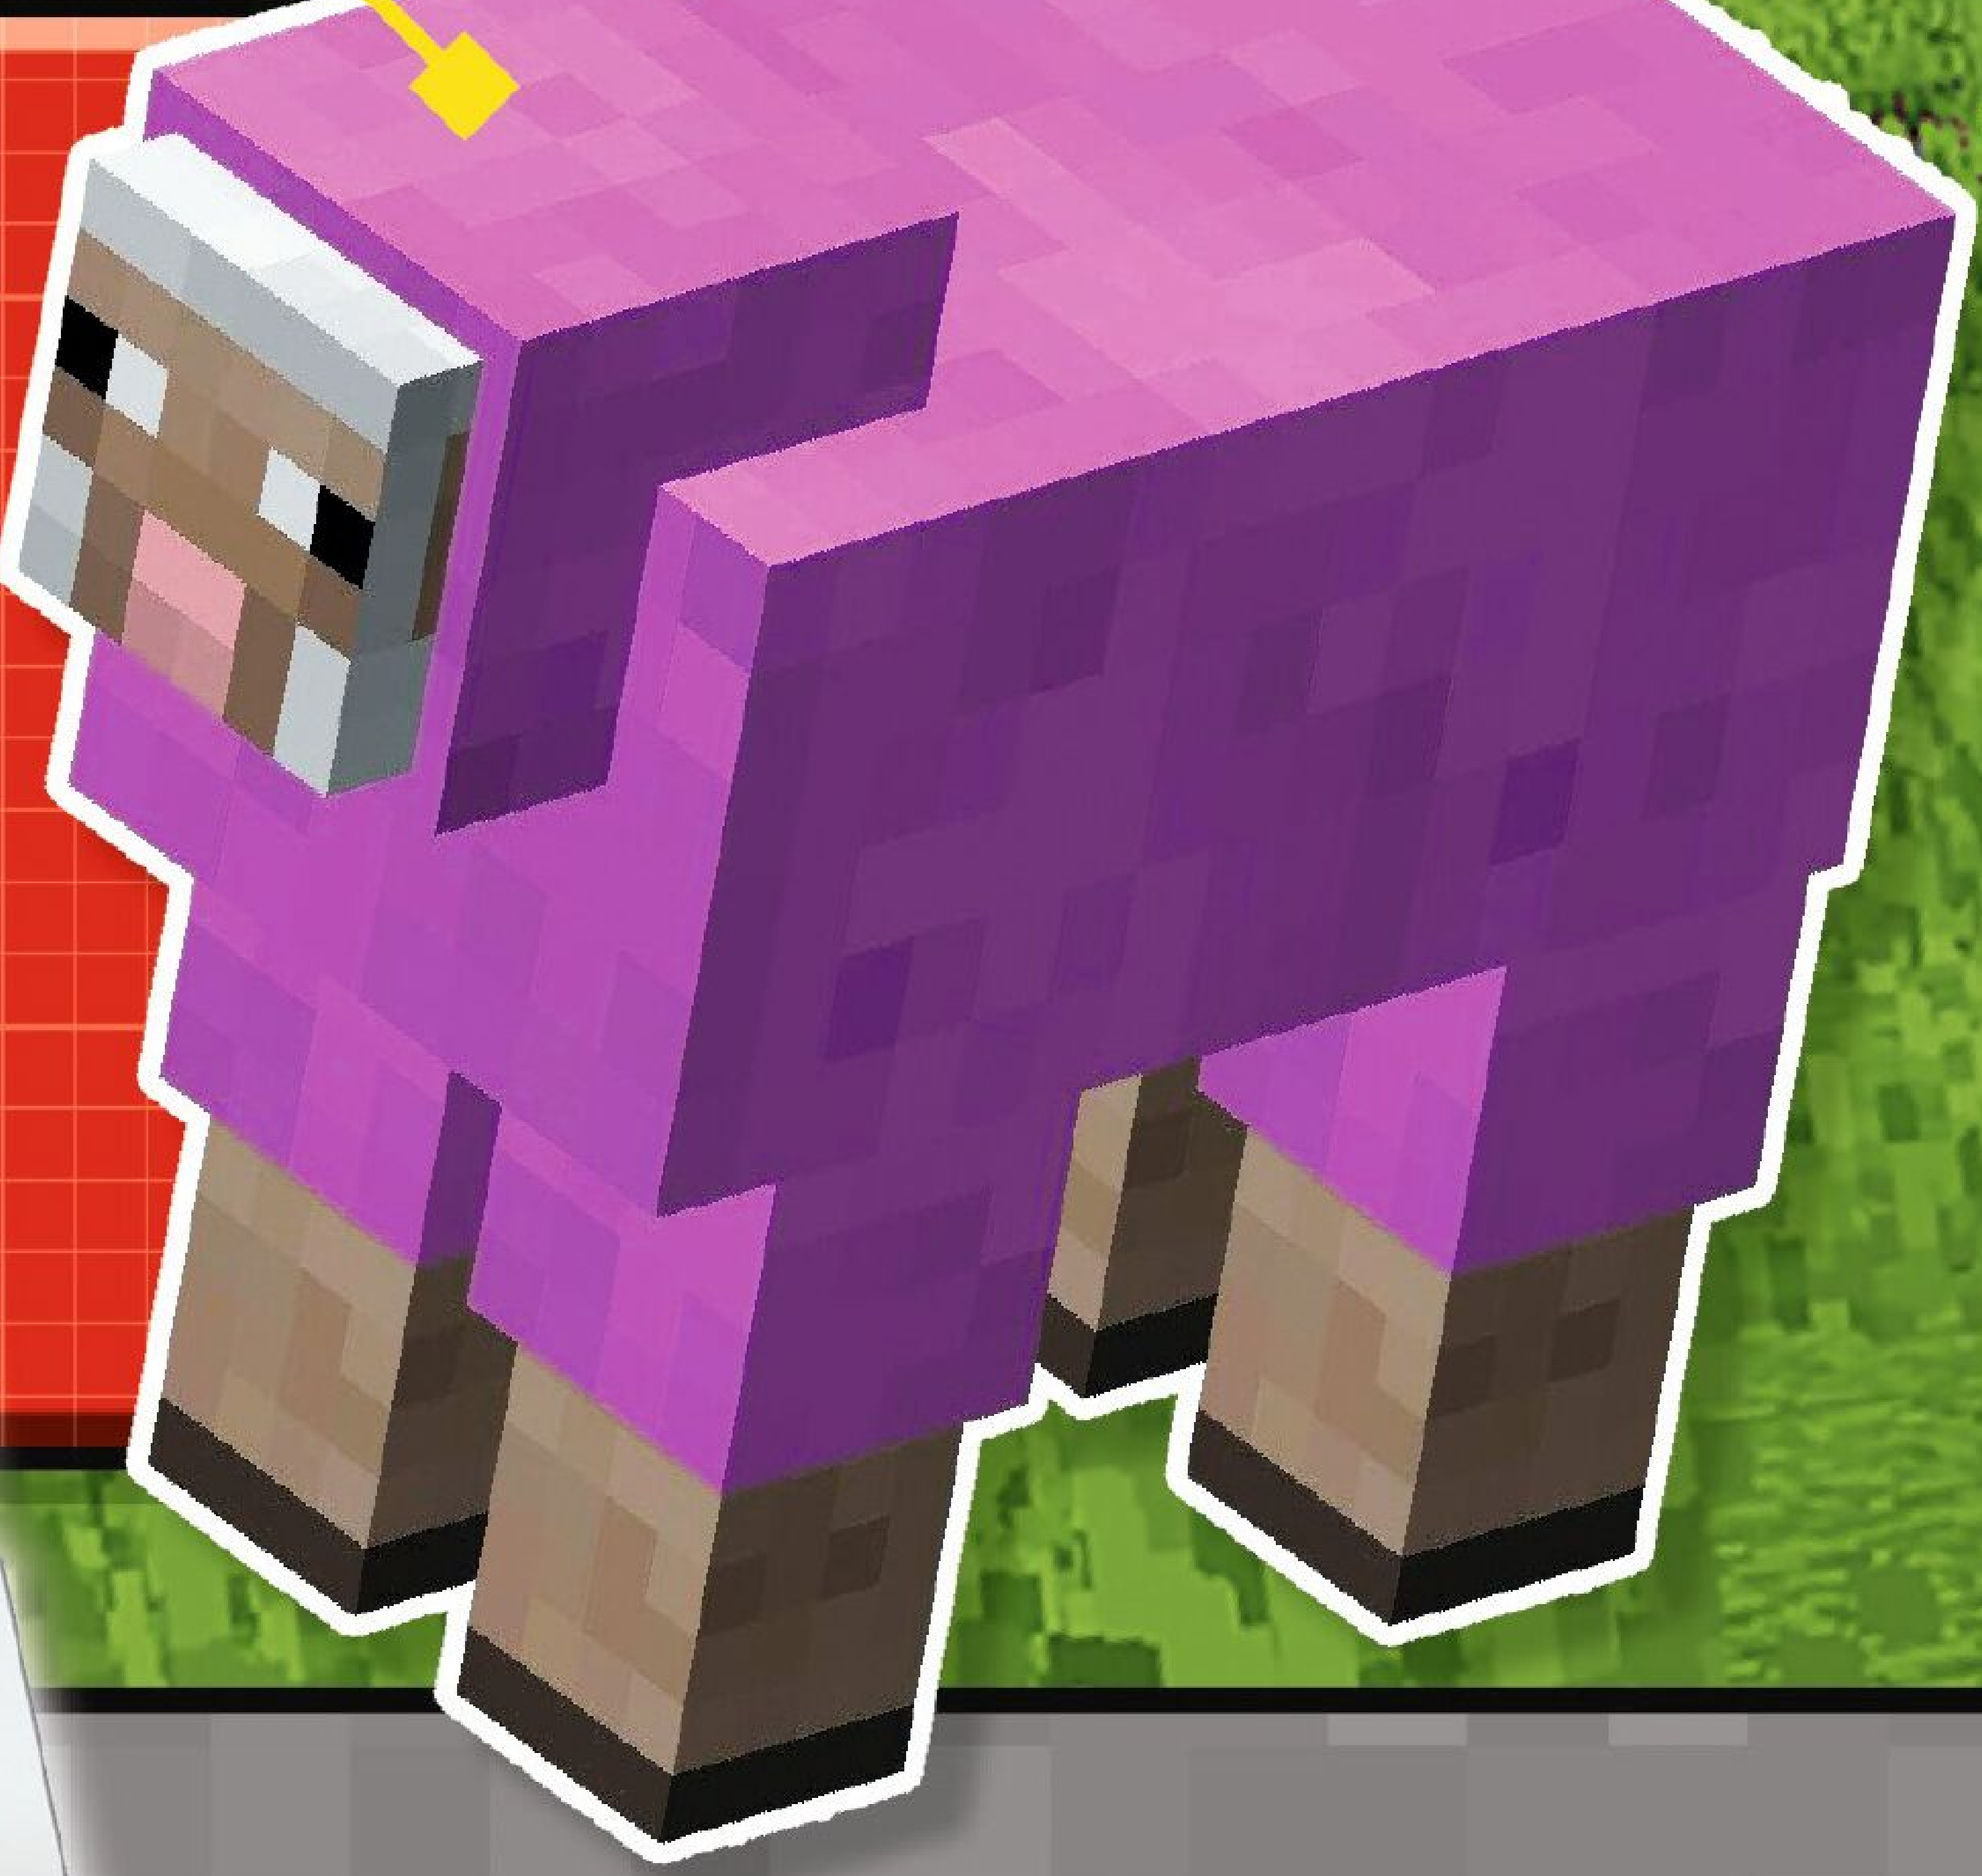


■ What's cooler than a Horse? A Zombie Horse! This undead ridable mob can be summoned in both Java and Bedrock versions of the game and despite being a Zombie, are actually tame and won't harm you! Although they look much cooler than a regular Horse, they only have one inventory slot, so you won't be able to add armour or carry chests, so they're not quite as useful.

COMMAND:

```
/summon zombie_horse ~ ~ ~ {Tame:1}
```

RAINBOW SHEEP!



■ Okay, so Sheep might not be quite so secret, but did you know you can change their colour?! All you need to do is give a regular Sheep a special name tag and then it'll cycle through all the colours of the rainbow! Perfect if you want to give your farm a fun makeover!

EA SPORTS FC 24

GENRE: SPORTS SYSTEM: PS4, PS5, XB1, XBSX/S, NS

After a 30-year run, the **FIFA** franchise has been retired. But fear not football fans, it's been rebranded as **EA Sports FC 24**!

FIFA veterans won't take long to get used to the new format as the changes have been minor. Classic modes such as Career, Volta and Ultimate Team are still there, while Pro Clubs is now simply Clubs. This allows gamers to play online against rivals, or locally in single player or cooperative matches.

Graphics are now even more awesome, thanks to an upgraded Hypermotion system! Using scans from live matches gives the games and cut scenes a more realistic feel which we love. We also like that the new menu layout is easier to navigate.

Ultimate Team has been improved by the addition of women's football and allows for sides including both male and female players. **Ella Toone** laying on a goal for **Erling Haaland**? Go for it!

The gameplay is still quite slow in default mode, but this is easy to change in the settings. New in-game features include Precision Passing and Controlled Sprints, plus there's lots of new skill moves. The No Rules option has survived – but this isn't for the faint-hearted!

Career Mode now features Tactical Vision. This involves hiring coaches for your team's style of play, ranging from Tika Taka to Park the Bus. New training drills will improve your squad's skills as you aim for that elusive league and cup double.

EA Sports FC 24 is a worthy successor to the classic **FIFA** series, suitable for both longtime fans and beginners!

KOA AND THE FIVE PIRATES OF MARA

GENRE: PLATFORMER, ADVENTURE SYSTEM: PS4, PS5, XB1, XBSX/S, NS, PC

✓ + MIX OF LEVELS

✗ – NO DOUBLE JUMP

Get ready to explore the islands of Mara with Koa and her best friend, Napopo!

As you get started, you can pick from two game modes, Normal or Relaxed. Relaxed brings down the difficulty by offering more checkpoints, which is awesome if you're new to platforming or if you want a more chilled way to play. If you opt for Normal mode and get stuck, don't sweat it! The game prompts you to switch to Relaxed if you need to – even if it's just for that one level.

The levels are bright and colourful, with a mix of obstacles to overcome, as well as hidden items for you to find. Although each level is a time trial, you can go back and replay them to finish collecting everything or to beat your time.

One of the best things about exploring Mara's different islands is the mix of environments. The underwater levels switch up the gameplay style which keeps things fun and fresh, and makes it stand out from similar platform games.

If you want to switch things up from Mario or Crash or are looking to get into platforming for the first time, then Koa and the Five Pirates of Mara is a great choice that suits a range of skill levels.

MOVING OUT 2

Do you have what it takes to be a top F.A.R.T? Don't be so gross, it means 'Furniture Arrangement and Relocation Technician', obviously!

As part of the Smooth Moves team, it's your job to pack (or unpack) houses but it's not as straightforward as it sounds. Thanks to funny physics and weird and wacky obstacles, moving quickly gets chaotic!

Things only get more chaotic – and fun – when you play with friends! You can either play couch co-op with up to three other movers or play online with crossplay co-op. The more you play, the harder (and weirder) the challenges get, so you might find yourself going back to play the same levels, especially if you want to bag stars.

Like other physics-based games, like Gang Beasts, the mechanics can be a little tricky and things don't always go where you want them to. But thanks to the quirky nature of Moving Out 2, this feels funny instead of frustrating.

Although it's still fun to fly solo, we reckon if you love a silly party game with your pals then you'll want to try this!

NICKELODEON ALL-STAR BRAWL 2

Nickelodeon All-Star Brawl is back... and it's bigger and better than ever before!

There are so many new features we just can't wait to explore, including loads of new characters like **Jimmy Neutron** and **Squidward**! As well as an updated roster, the gameplay has been given a revamp too, introducing SUPER abilities and improved mechanics.

If that wasn't enough to be excited about, there's also loads of modes to check out, from an original new story campaign to a new arcade mode and loads of minigames too.

All-Star Brawl 2 even has crossplay capability, so you'll be able to battle it out with your mates online, even if they're on a different console. We can't wait to jump in and play!

Take to the depths of a vibrant alien planet and clean the ocean in **Loddlenaut**!

GUP-14 is a small ocean planet which was once home to the **GUPPI Corporation**. Your mission here is simple – clear litter and toxic waste. Very quickly you see your hard work pay off and axolotl-like creatures known as **Loddles** begin to appear.

The deeper you explore, you'll have to clear more litter to upgrade your bubble gun and jetpack, which reminded us a little of **Slime Rancher**.

Although navigating the ocean is easy thanks to the simple controls, using the inventory does take a bit of getting used to. However, we like that you don't need to empty your storage often meaning you just have to keep an eye on your oxygen level.

There's plenty to keep you busy in **Loddlenaut** but you never feel too rushed. If you're new to PC gaming, this charming ocean survival game is a great pick!

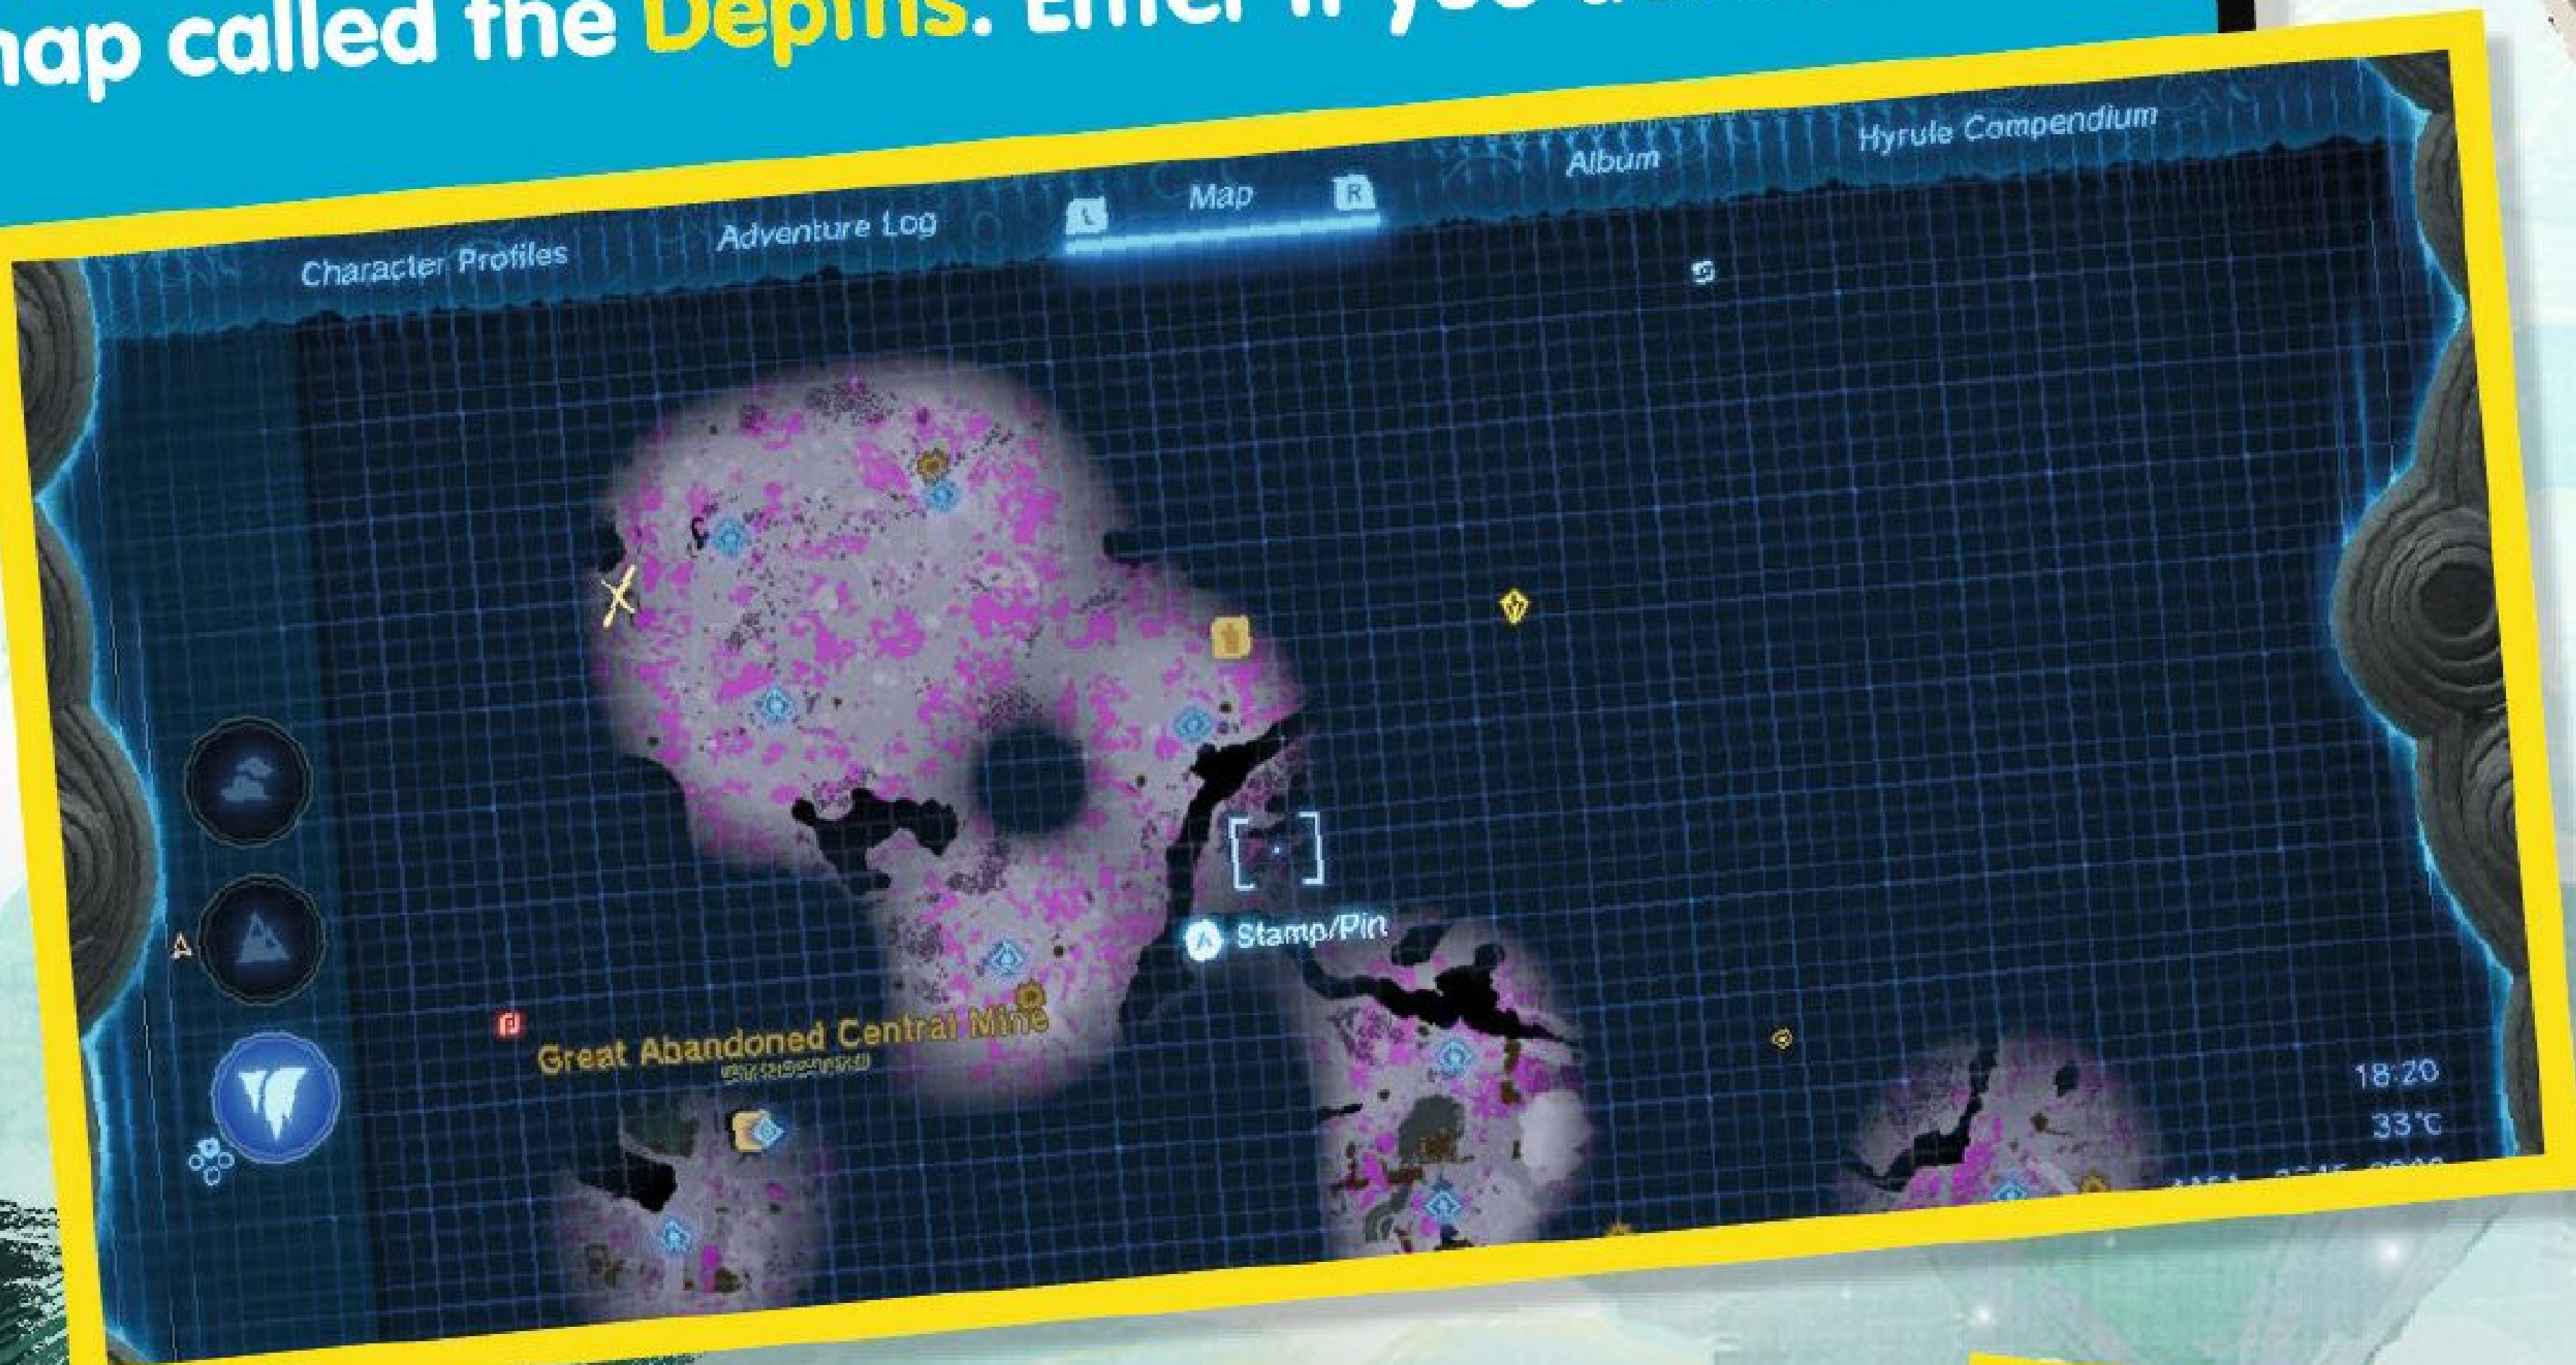
THE LEGEND OF ZELDA TEARS OF THE KINGDOM

HOW TO SURVIVE THE DEPTHS!

WARNING! PROCEED WITH CAUTION!

THE WHAT?

▲ Not only did **The Legend of Zelda: Tears of the Kingdom** bring us a whole map of sky islands to explore, but they completely reversed **Hyrule** in a spooky, pitch-black underground map called the **Depths**. Enter if you dare...



Character Profiles
Adventure Log
Map
Album
Hyrule Compendium
Stamp/Pin
Great Abandoned Central Mine
18:20

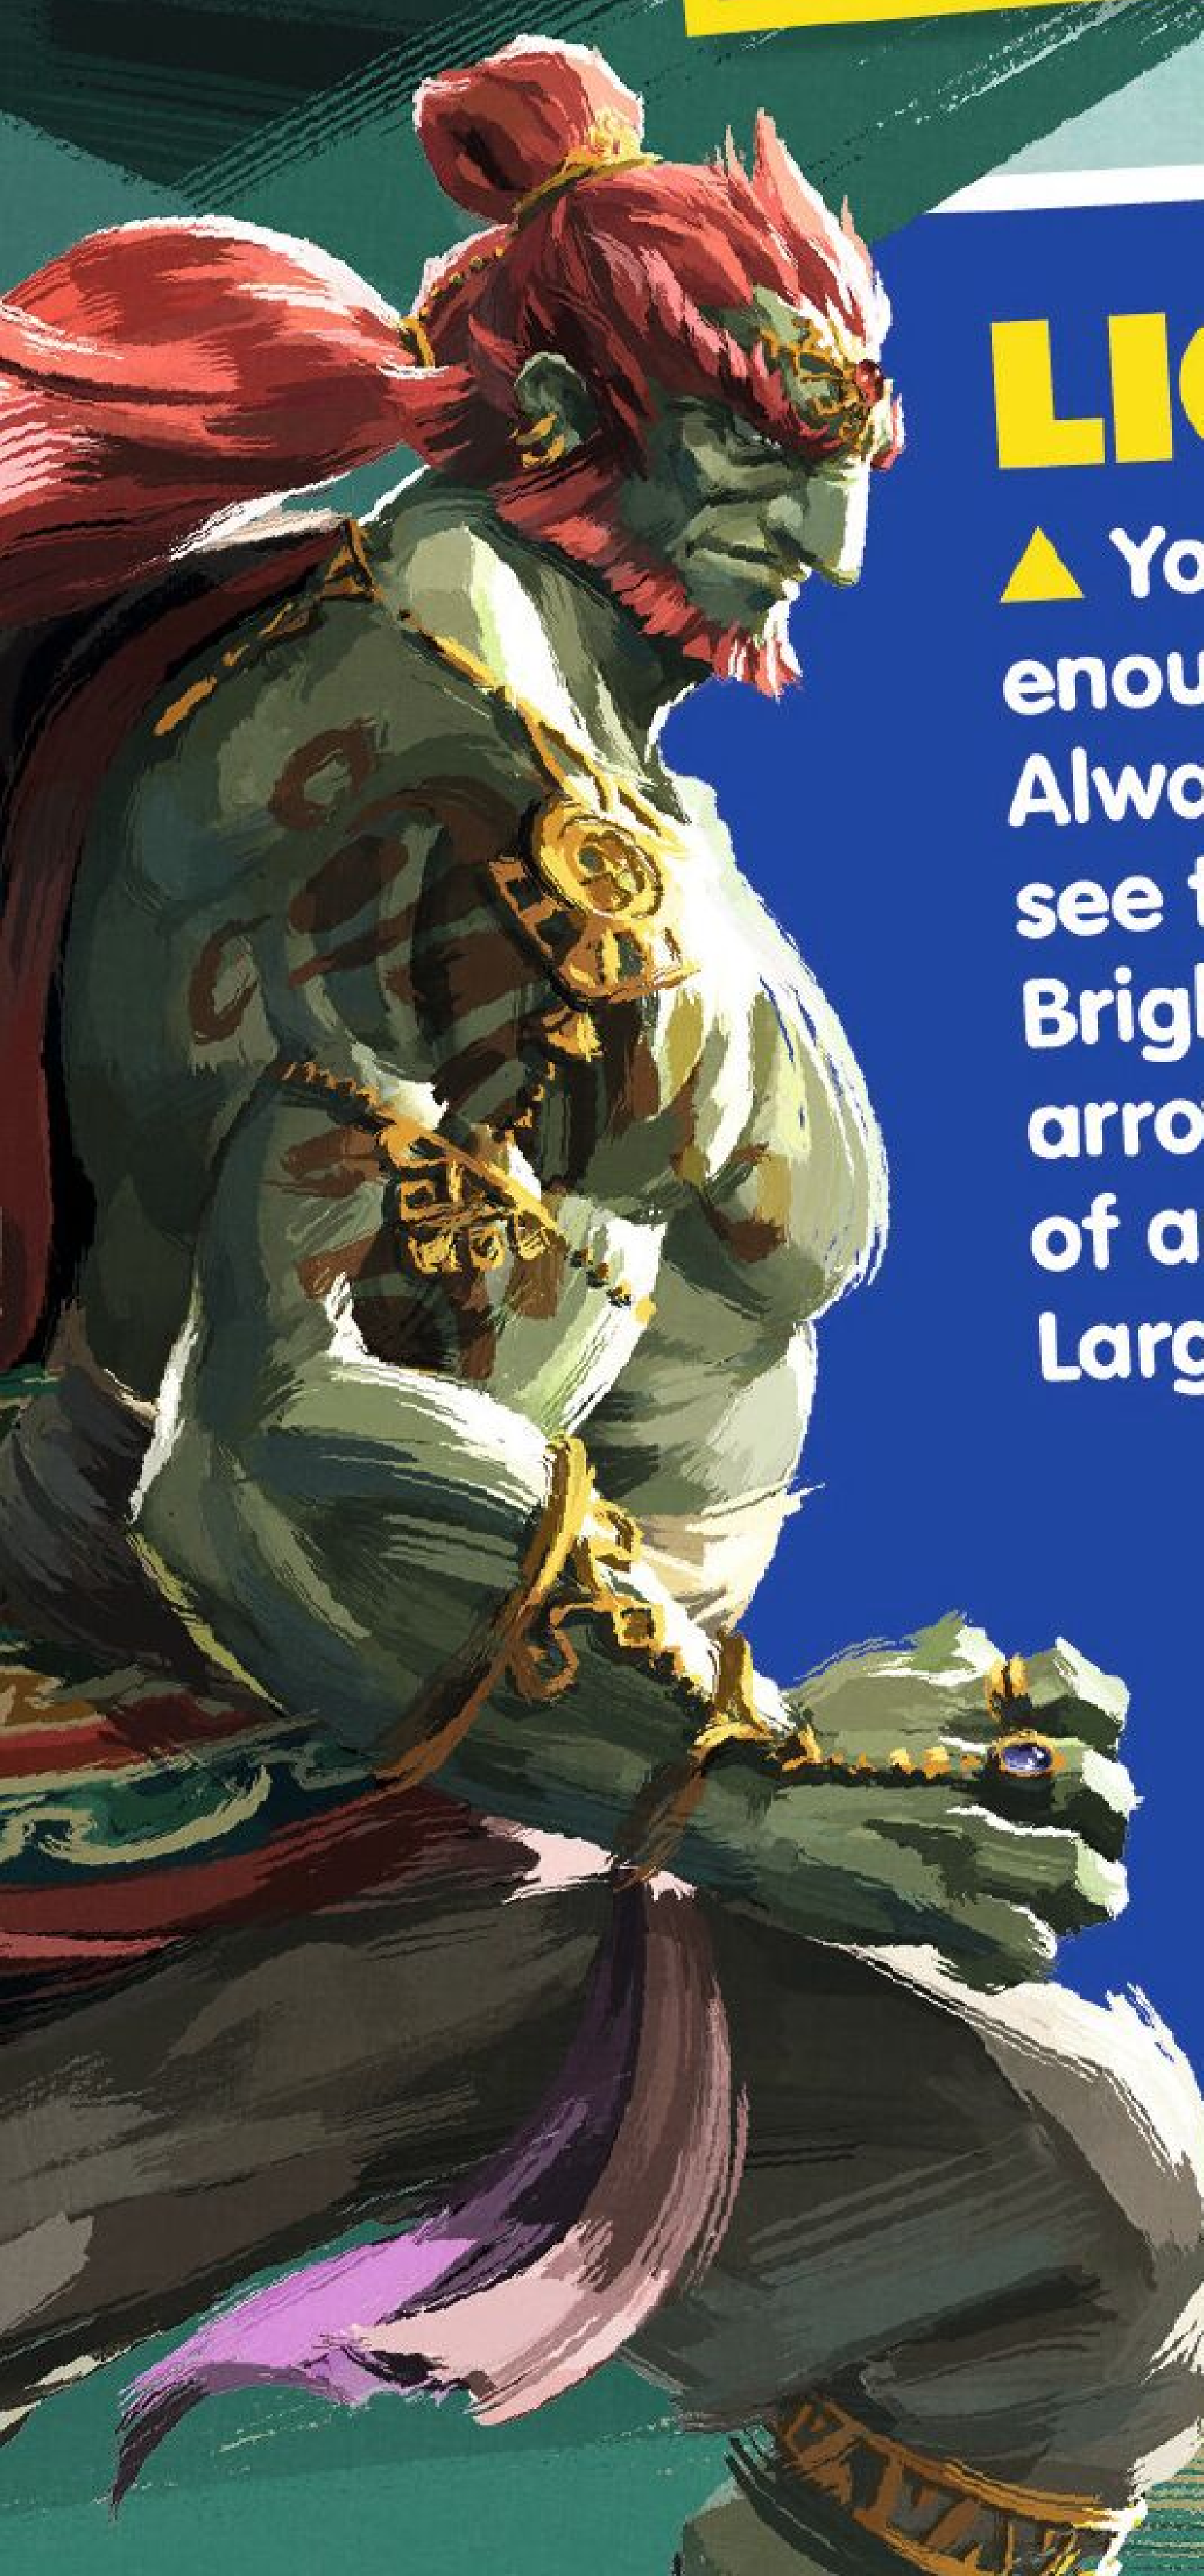
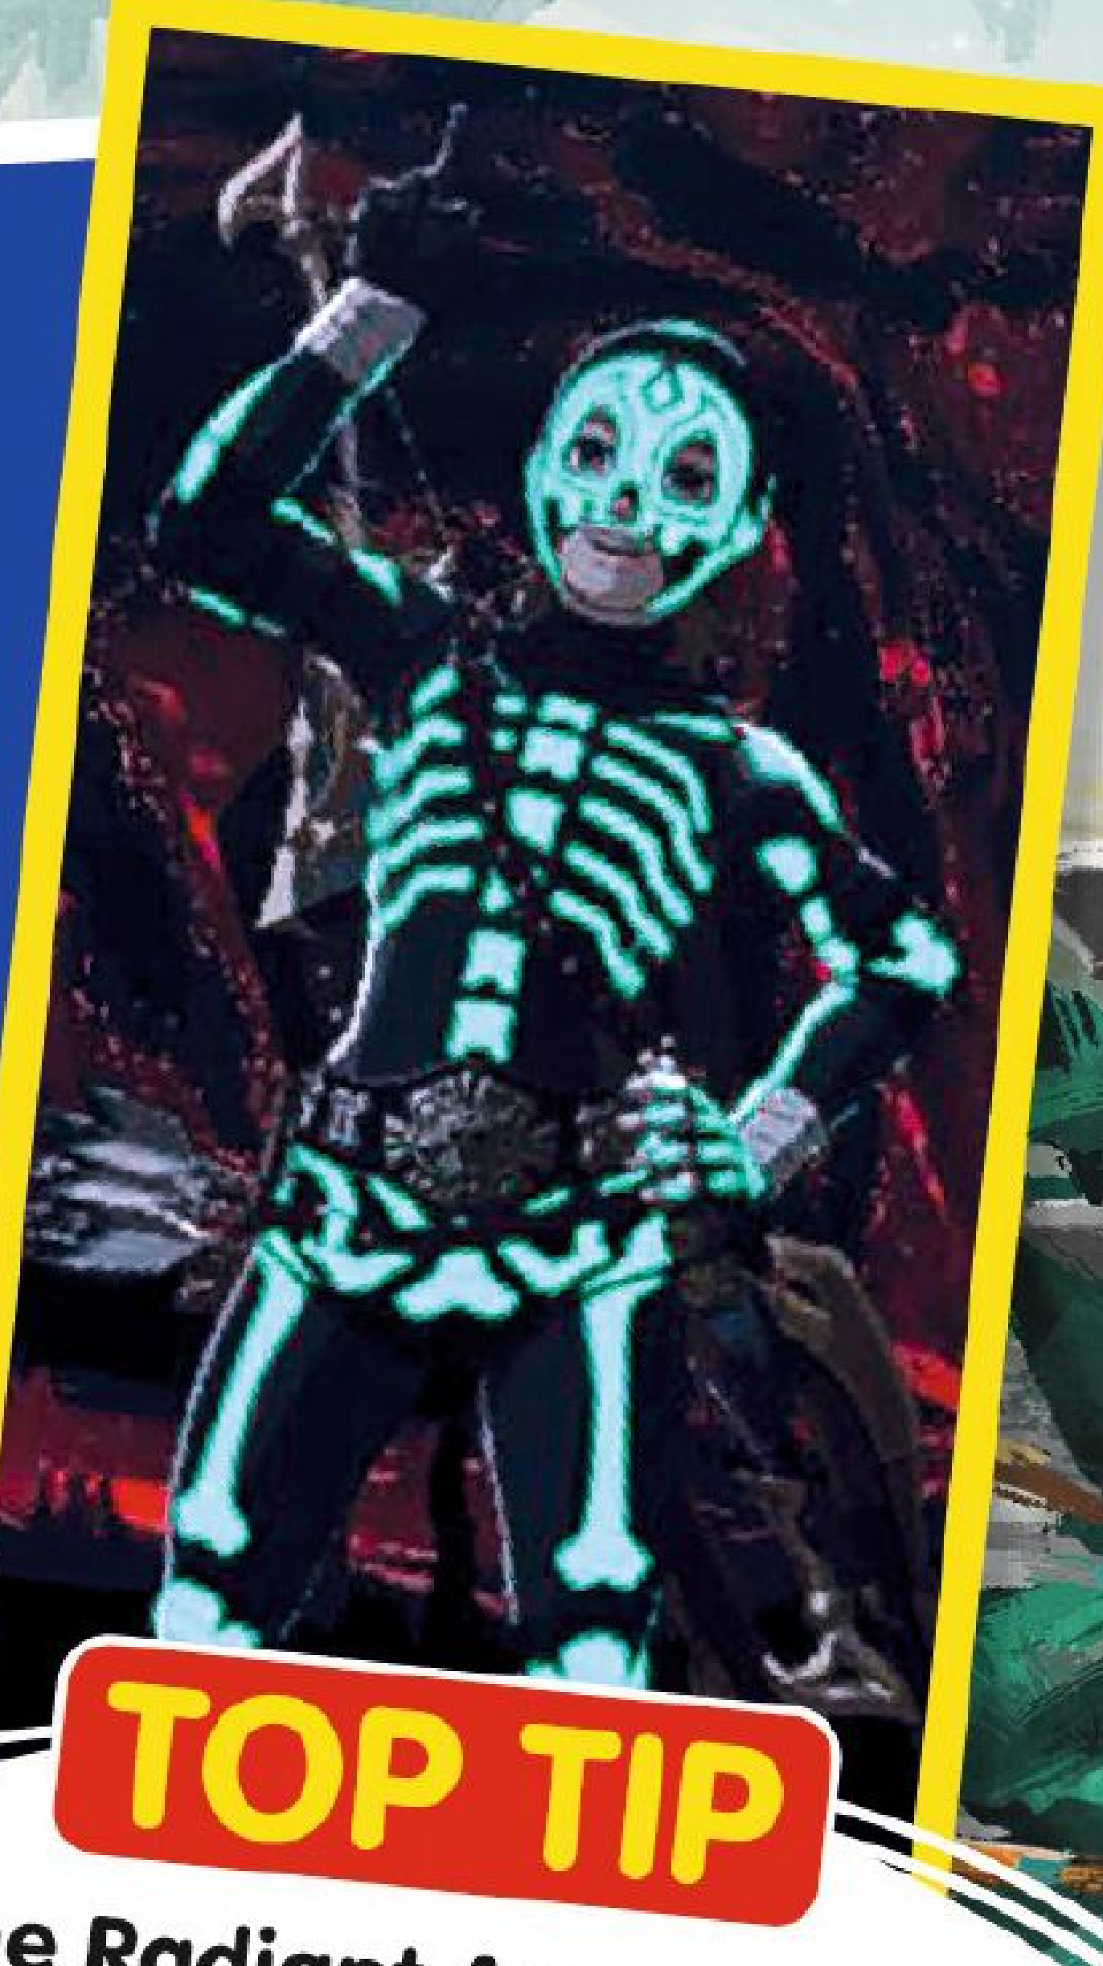
BE CAREFUL DOWN THERE!

LIGHT IT UP!

▲ You can NEVER have enough Brightbloom seeds! Always grab them when you see them. Throwing or firing Brightbloom seeds from arrows will illuminate a patch of area, even more with a Large Brightbloom seed.

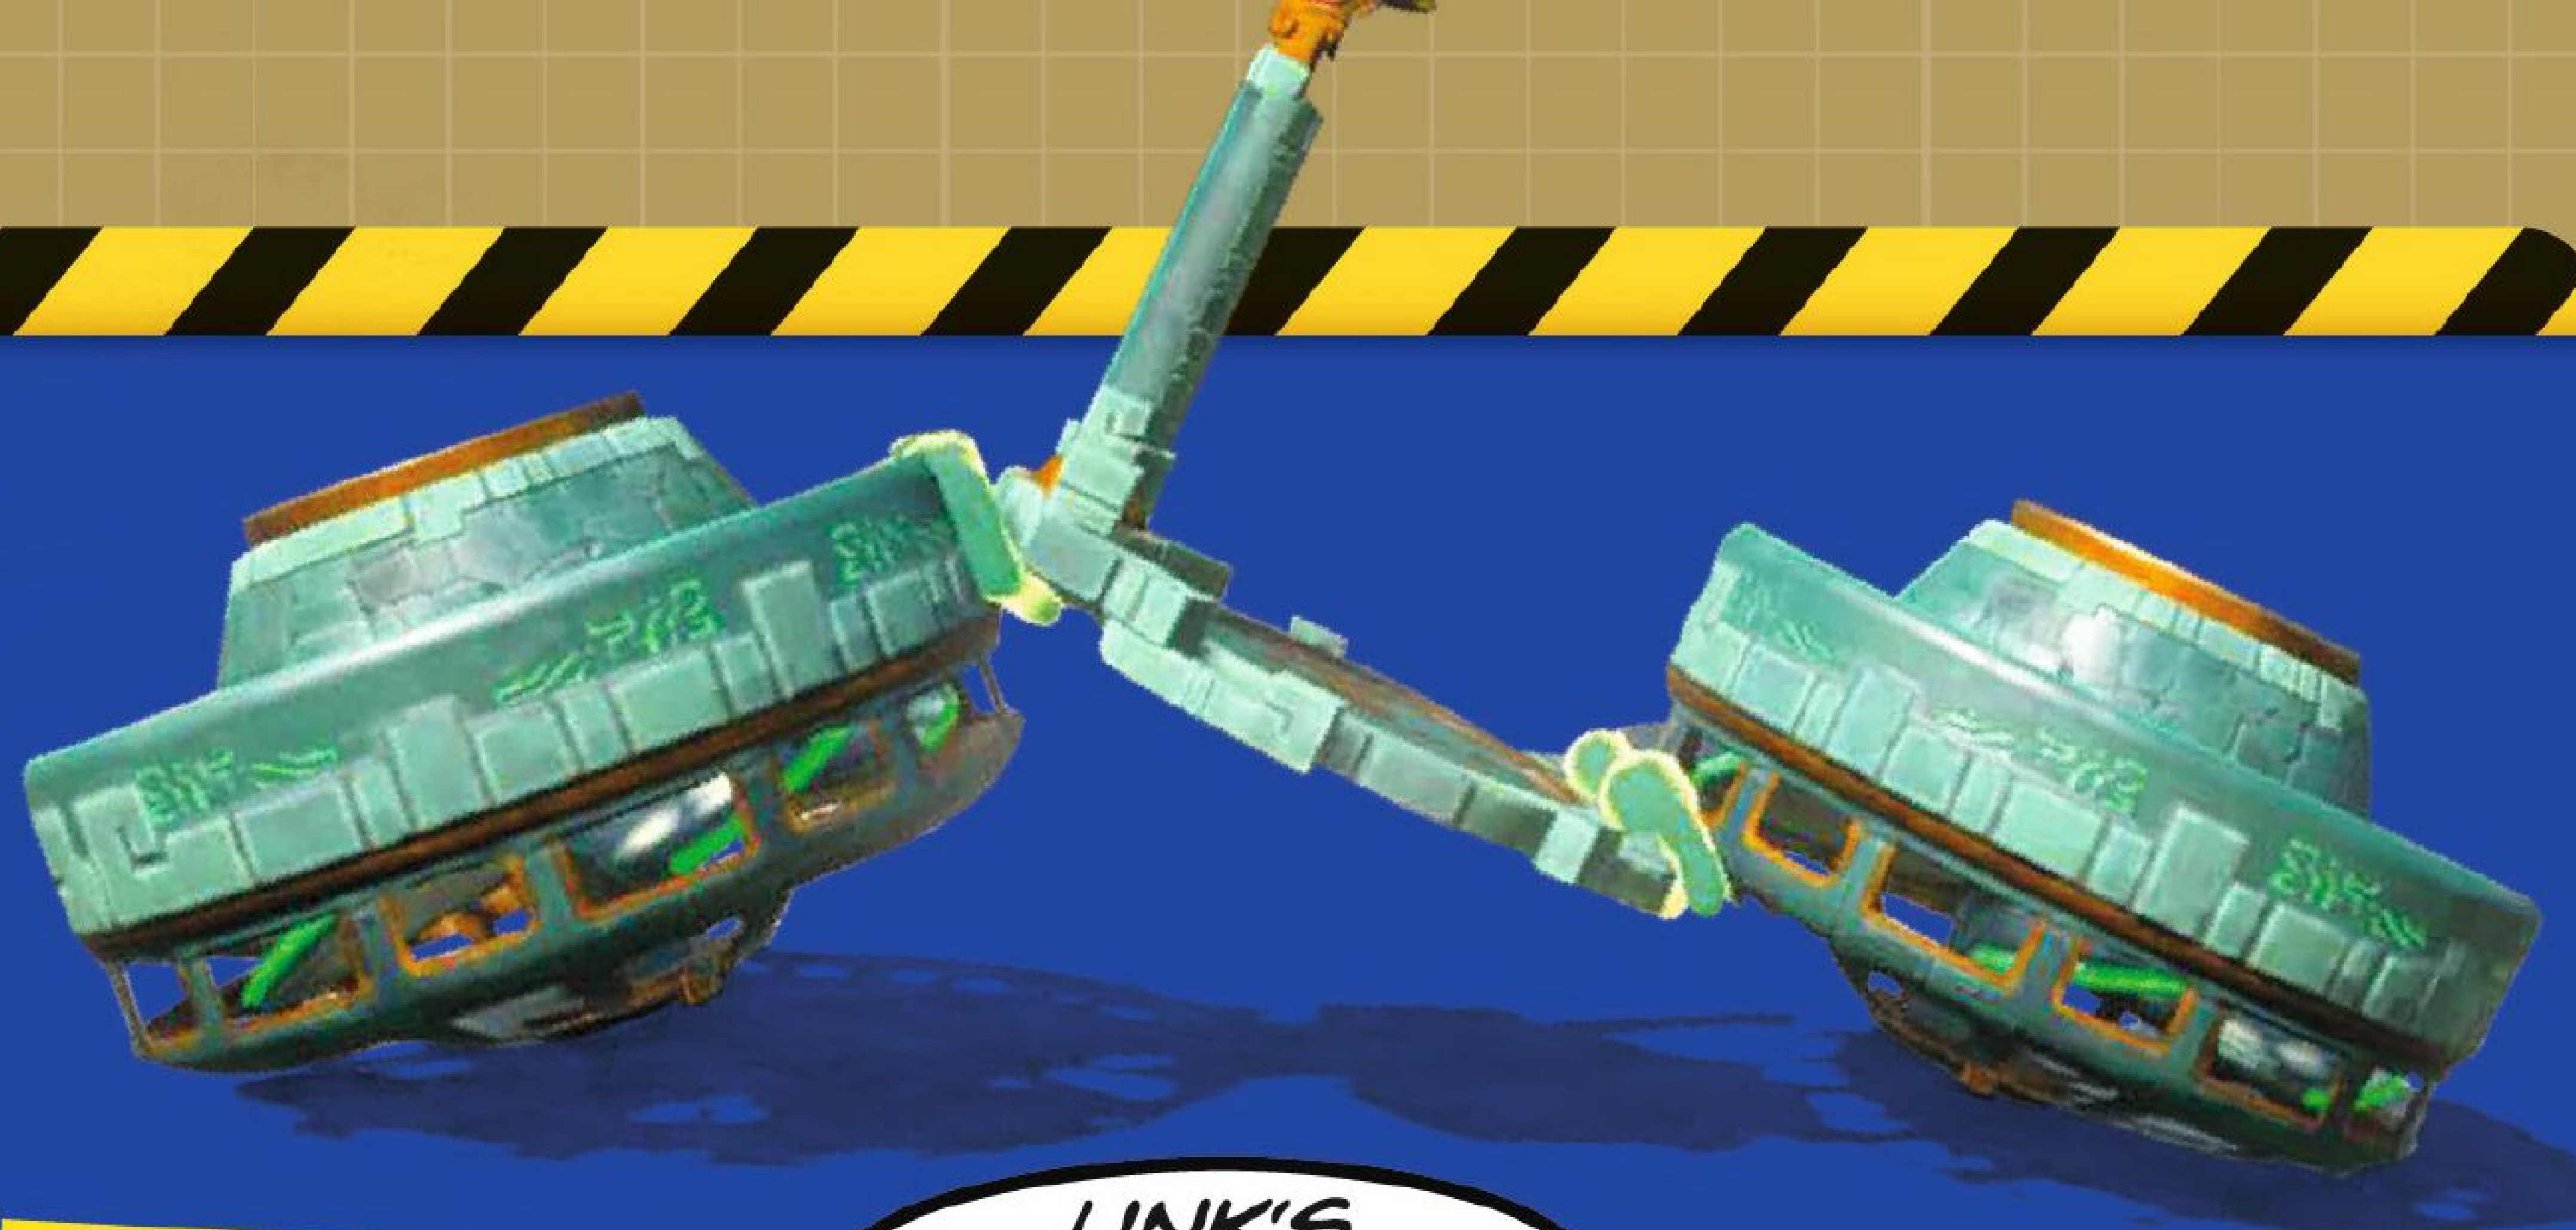




TOP TIP

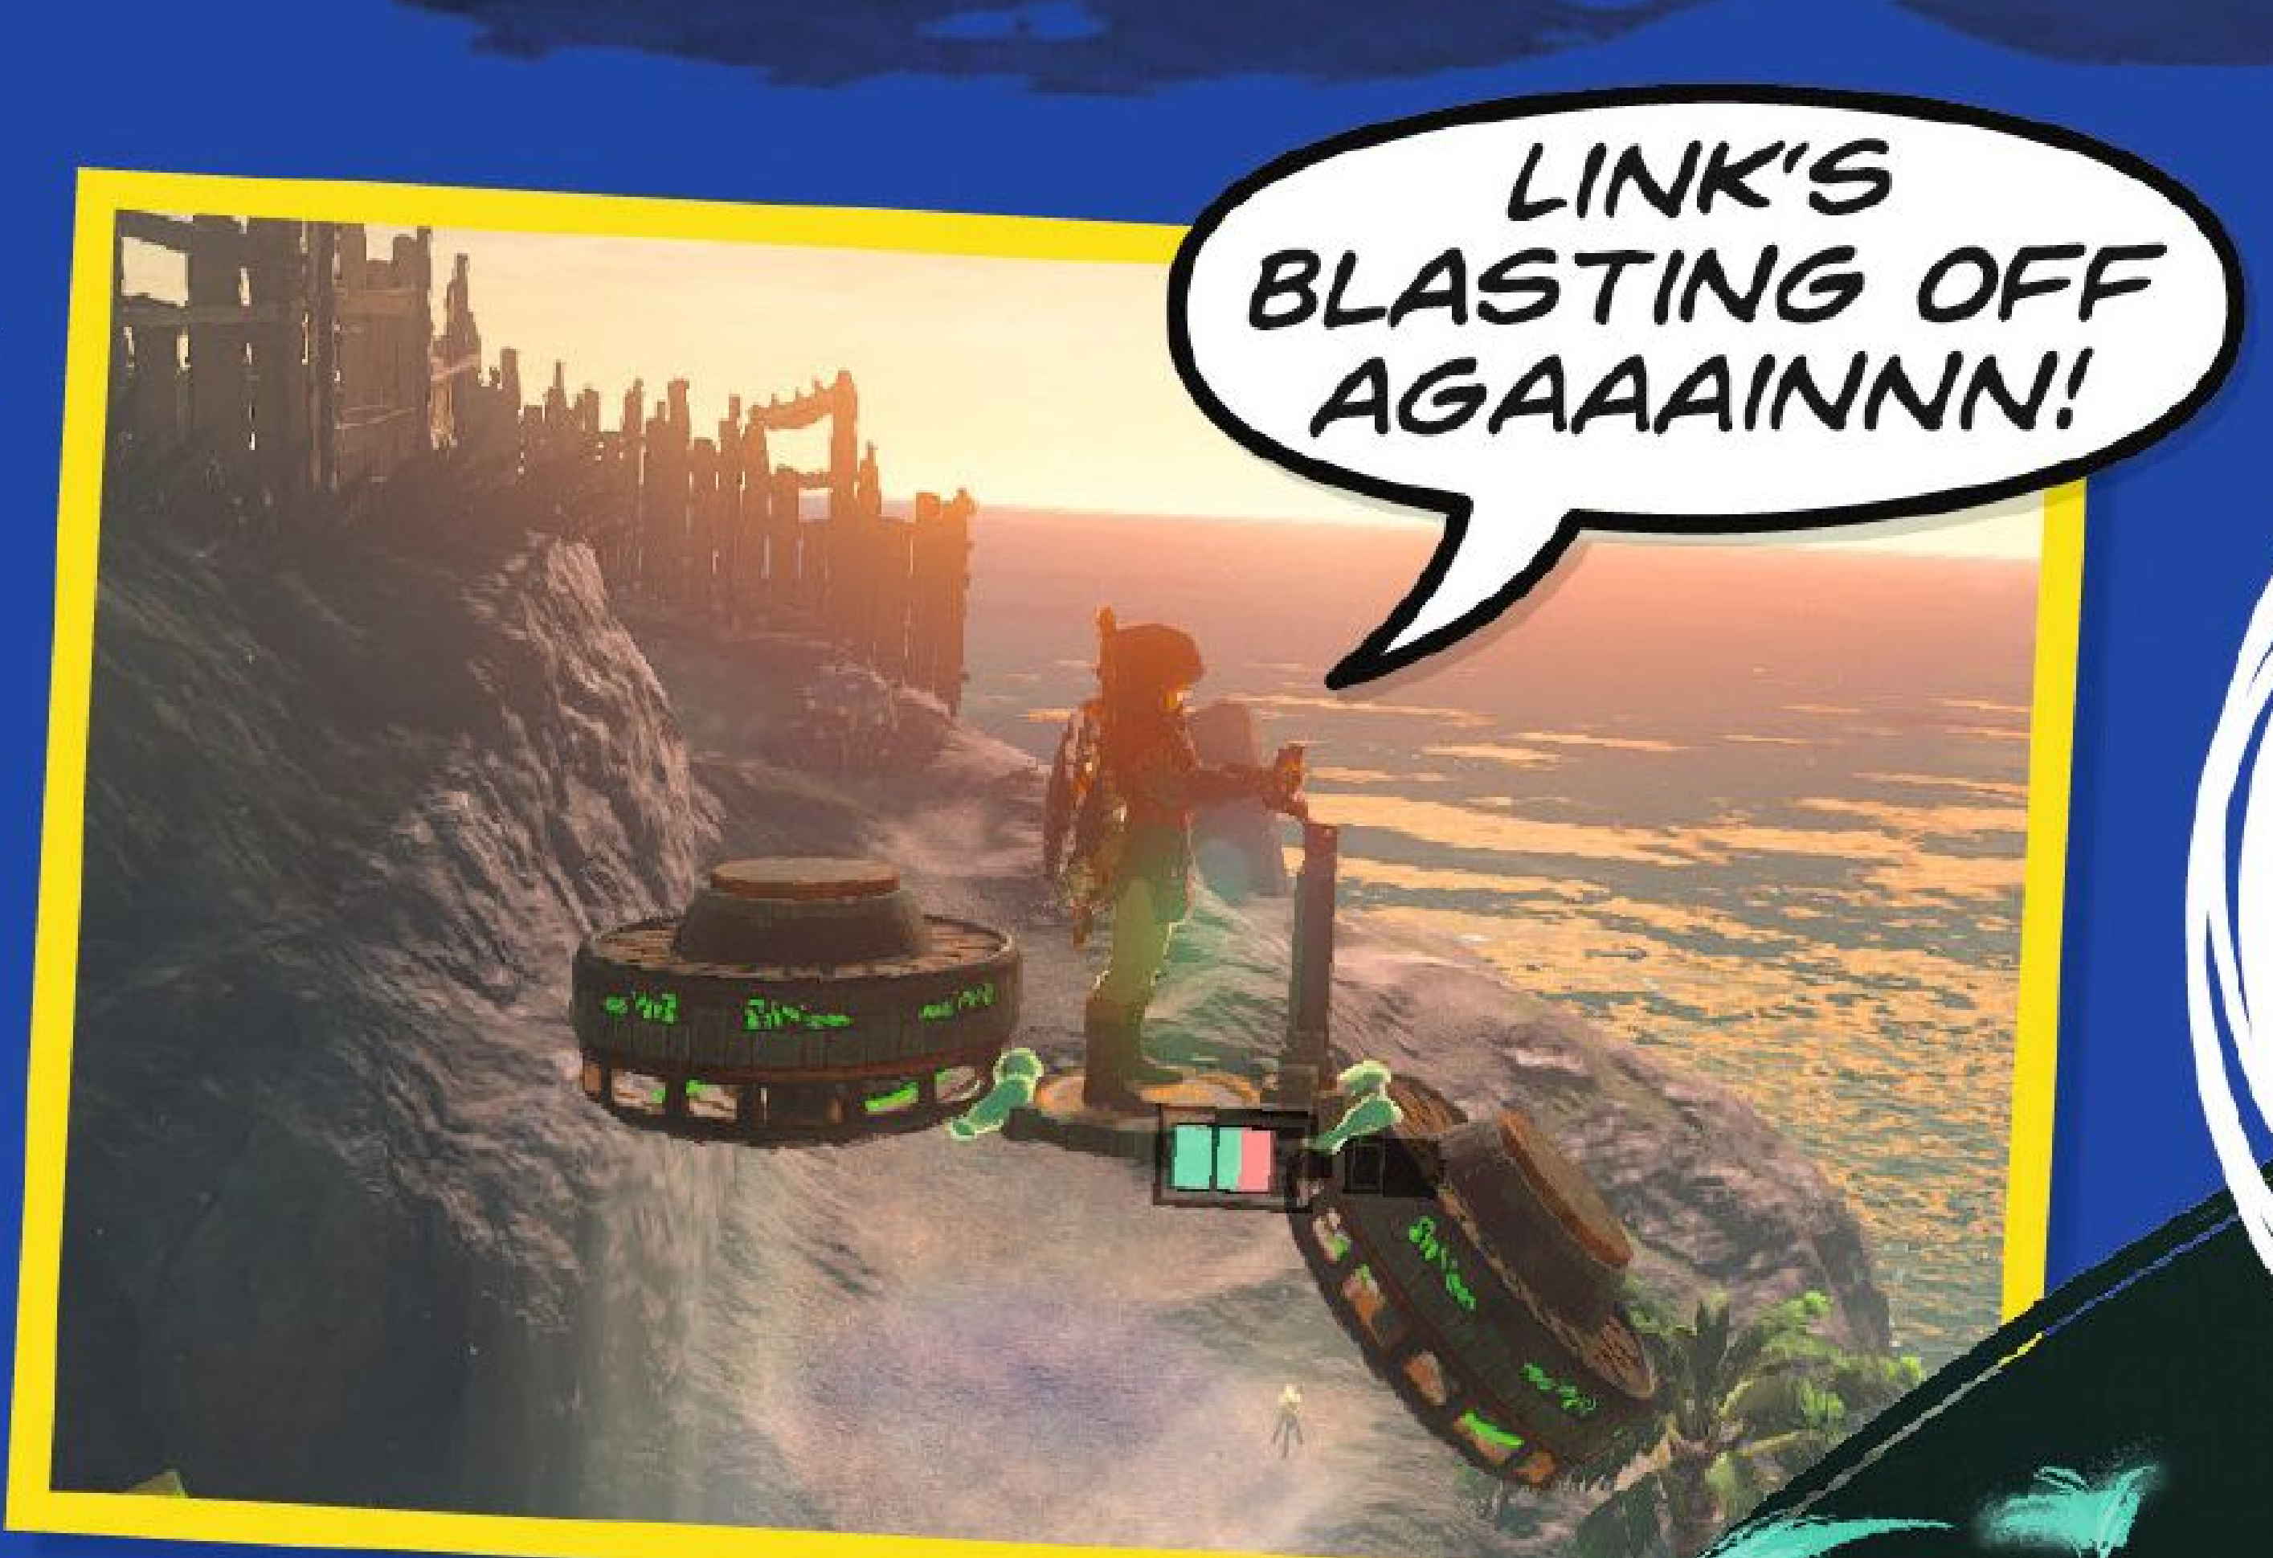
The Radiant Armour set glows in the dark but the Miner's Armour actually emits light around you!

BUILD A HOVERBIKE!

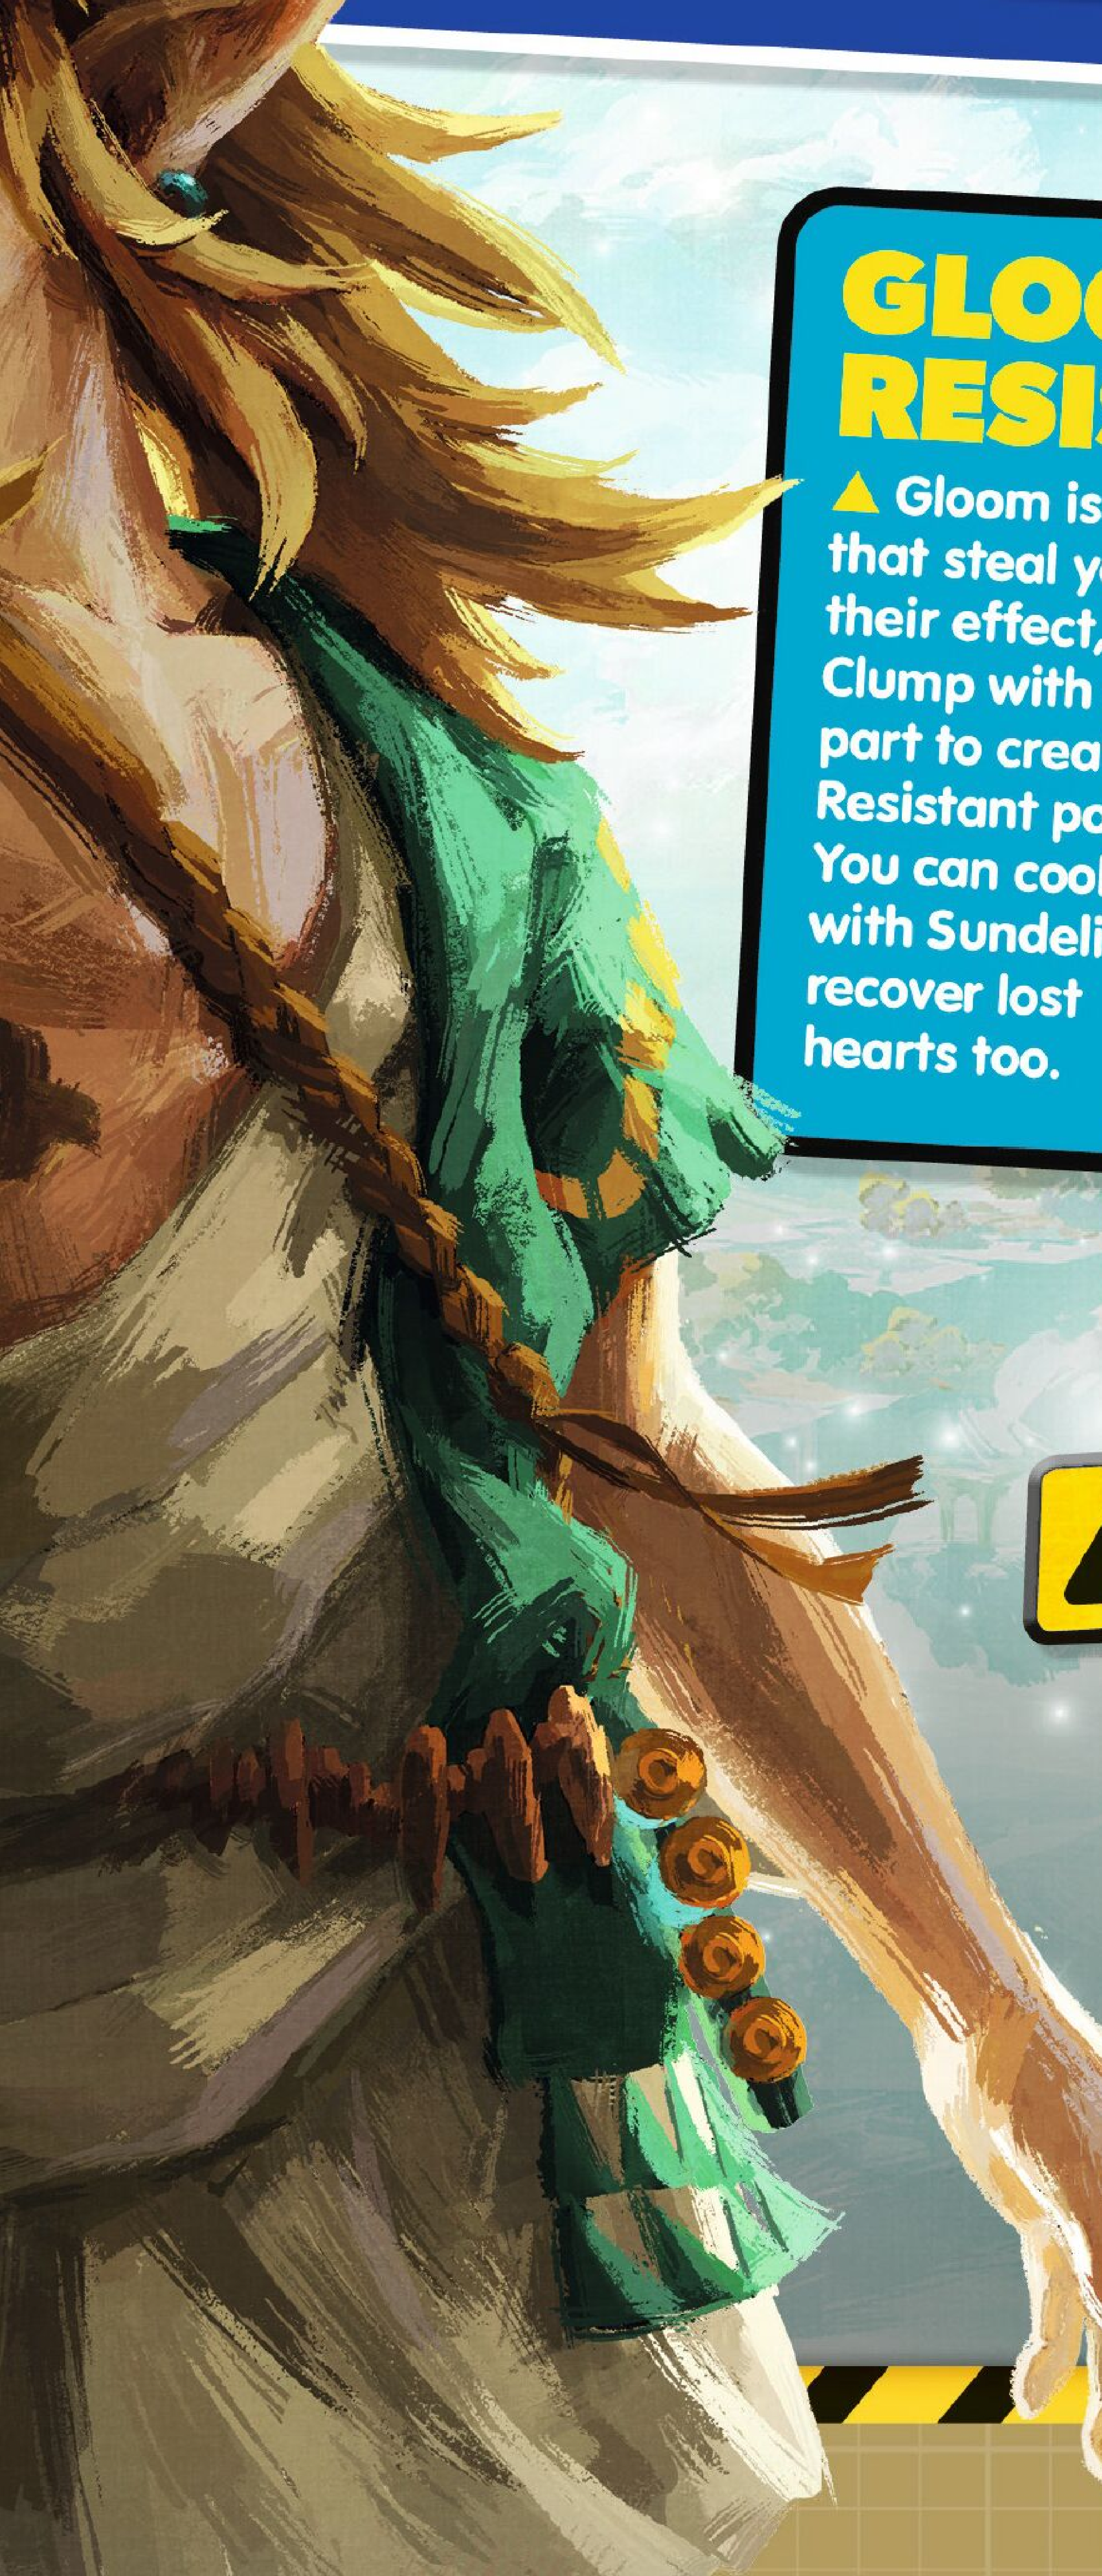


▲ Follow this schematic! It's fiddly to get right but once you do, you're flying. Literally. As long as you have lots of Zonai battery, you can quickly zap around the **Depths** seeking out Lightroots without bumping into scary enemies. It's handy for the surface too!

YOU'LL NEED:
- ● 2 X FANS
- ● 1 X STEERING STICK



TOP TIP
The **Depths** is a perfect reflection of **Hyrule**, so wherever there's a Shrine on the surface, there's a Lightroot in the **Depths** and vice versa!



GLOOM RESISTANCE!

▲ Gloom is the creepy red puddles that steal your hearts. To avoid their effect, cook a Dark Clump with a monster part to create a Gloom Resistant potion. You can cook meals with Sundelions to recover lost hearts too.

TOP TIP
Dark Clumps can be bought at Bargainer statues by trading lost Poes. Collect enough of them to gather the Gloom Armour set with built-in Gloom resistance!

⚠ BEWARE! ⚠

- ⚠ When enemies hit you in the **Depths** they have a Gloom effect that steals heart containers!
- ⚠ There are skeleton horses in the **Depths**... and you can ride them!
- ⚠ The **Depths** is the best place to mine Zonaite - unfortunately usually at enemy forts.
- ⚠ The **Yiga Clan** are back and this time they've set up camp in the **Depths**...

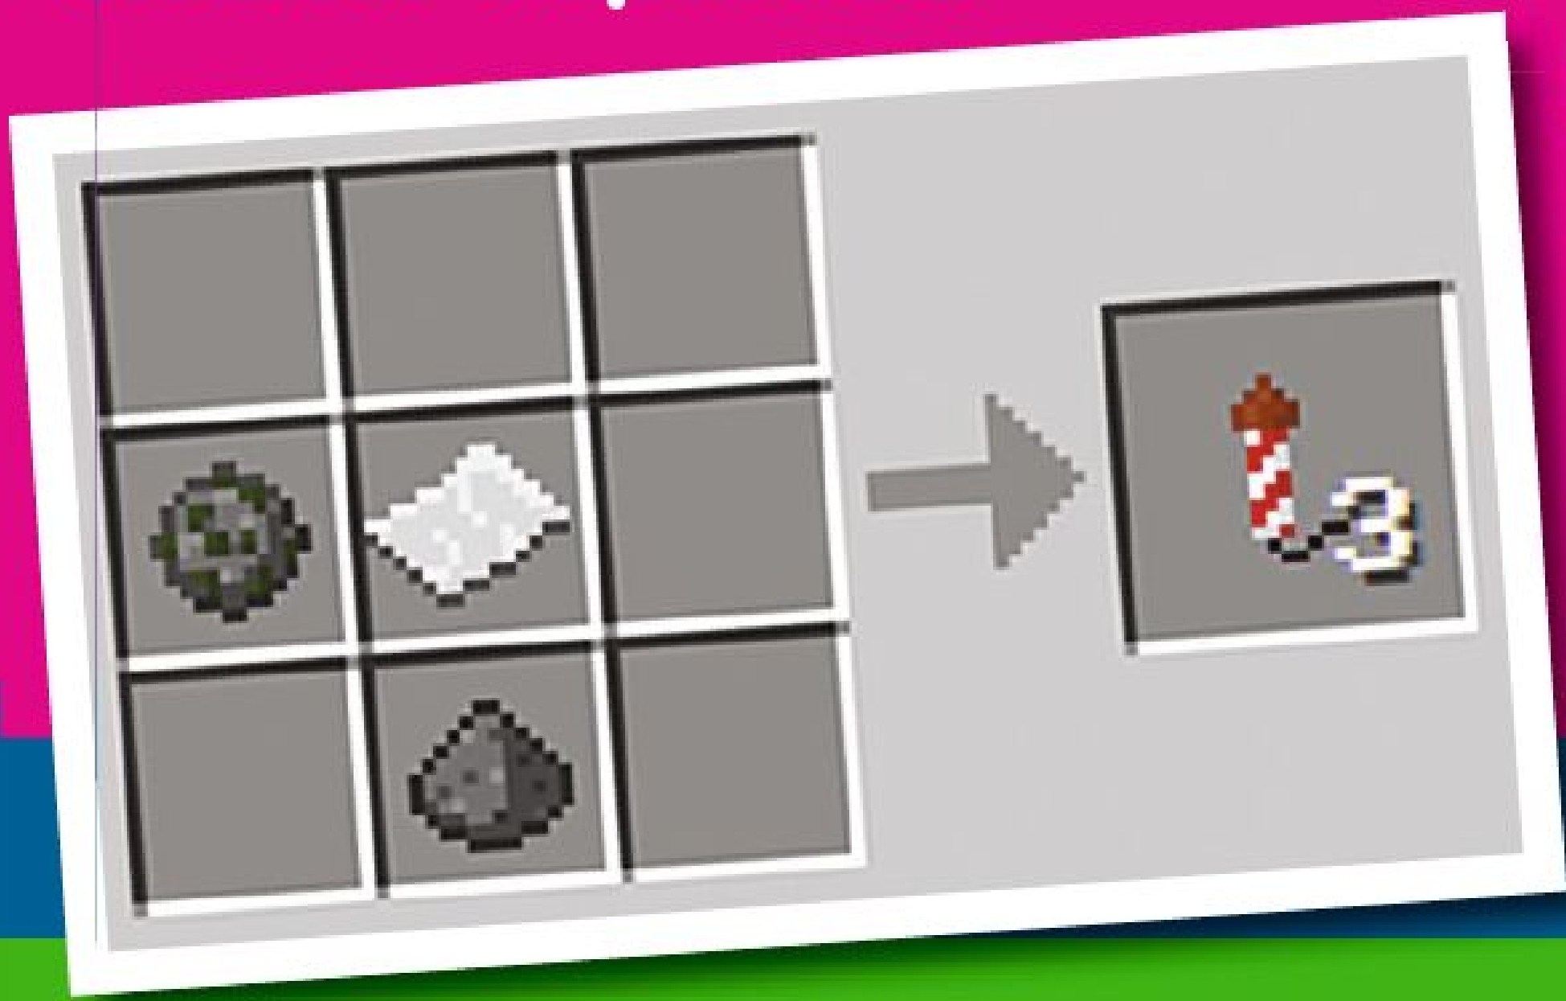
MINECRAFT FIREWORK FACTORY

LIGHT UP THE SKY WITH THESE TOP TIPS!

WHAT DO YOU GET WHEN YOU CROSS A DINOSAUR AND A FIREWORK?
DINOMITE!

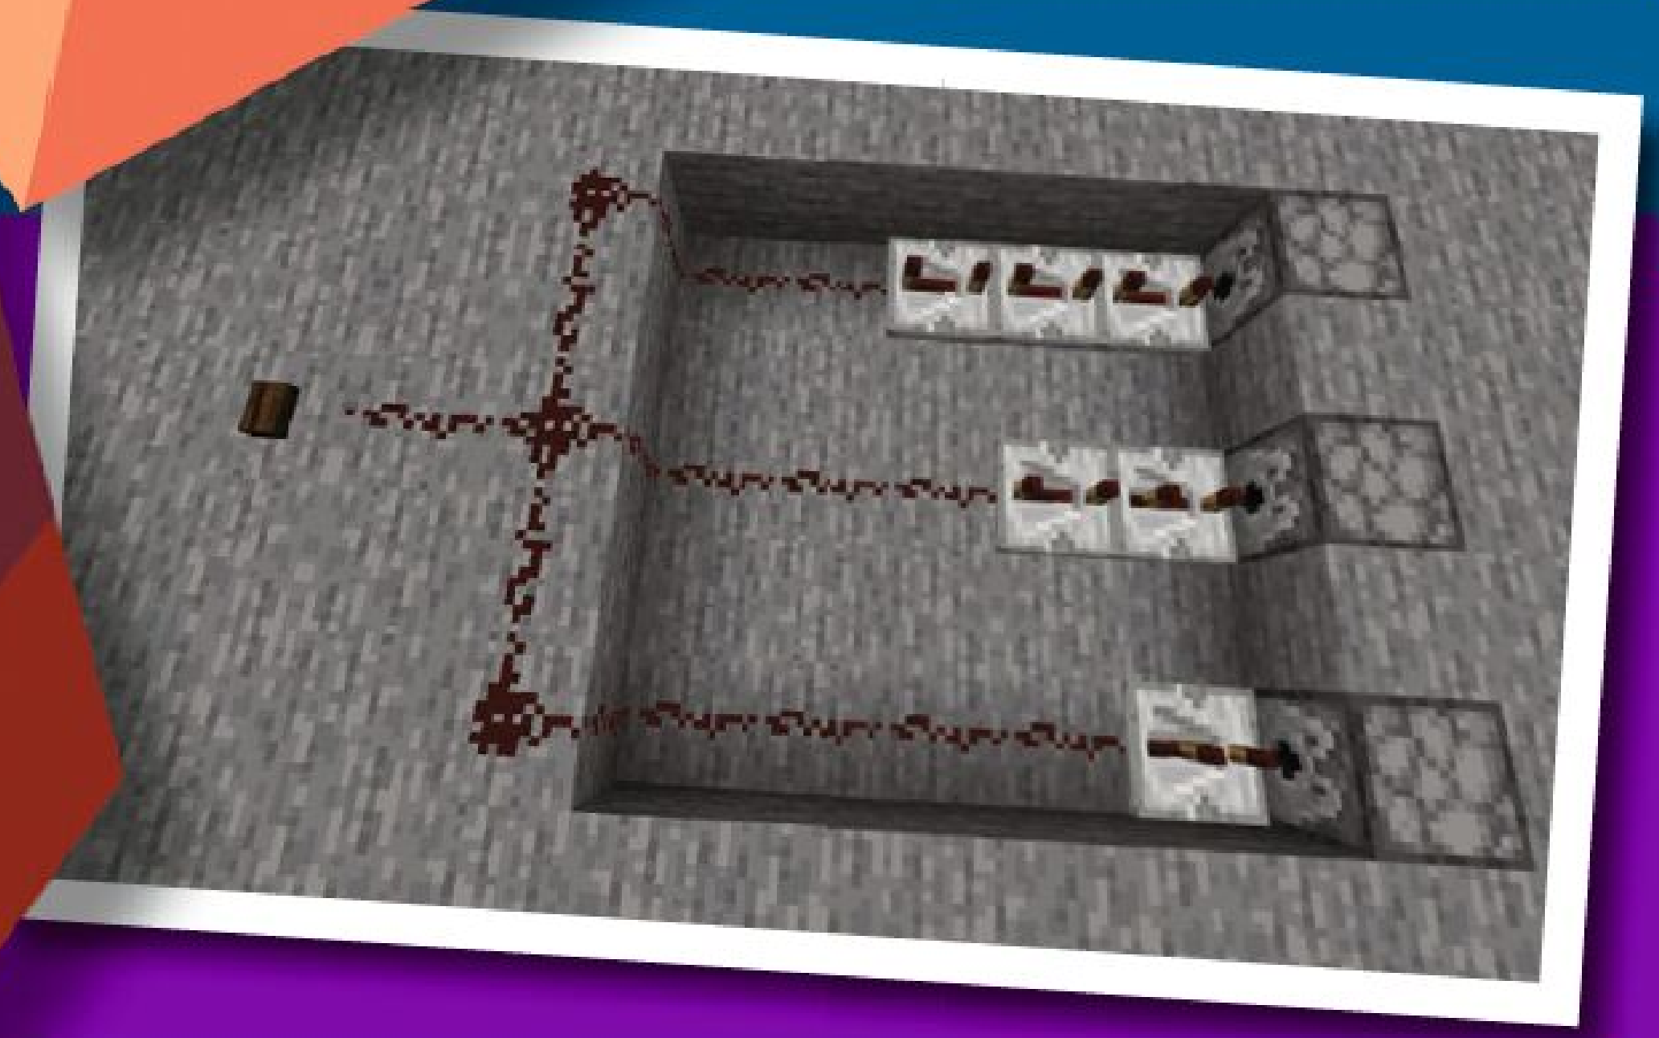
GETTING STARTED

- To put on an epic firework display, you'll need to craft some special rockets! Do this by combining paper and gunpowder like you would for a basic rocket, but then adding a firework star to give it a cool effect when it explodes.



SPECIAL EFFECTS

- If you want your explosion to look even cooler, try adding other items into your firework star recipe. Adding a Creeper head will give your explosion a Creeper-shaped face, and adding a gold nugget will make your explosion star-shaped!

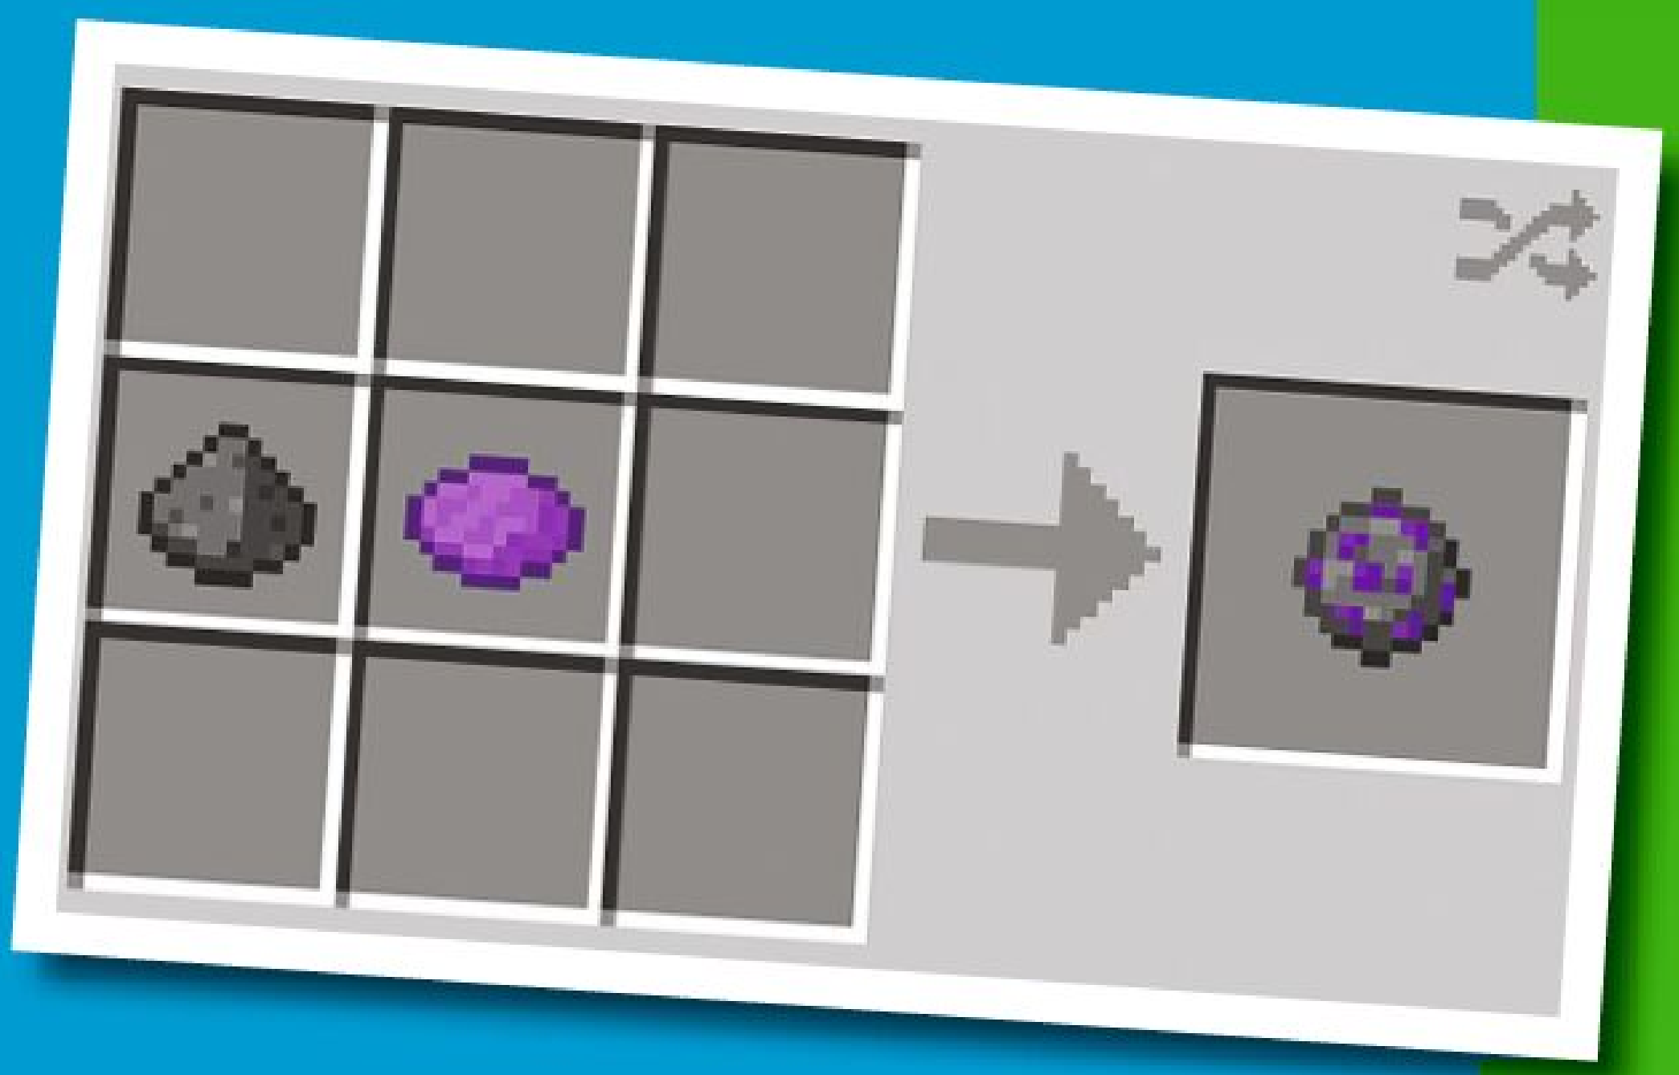


DID YOU KNOW?

You can use fireworks to power your elytra flight, or even fire them out of crossbows!

FIREWORK STARS

- You can craft firework stars by combining gunpowder with any colour of dye. The colour you pick will change the colour of your firework's explosion!



REDSTONE READY

- You can create timed displays by building a rig out of redstone, redstone repeaters and dispensers. This will take your display to the next level and mean you can enjoy it from a distance, just like everyone else.

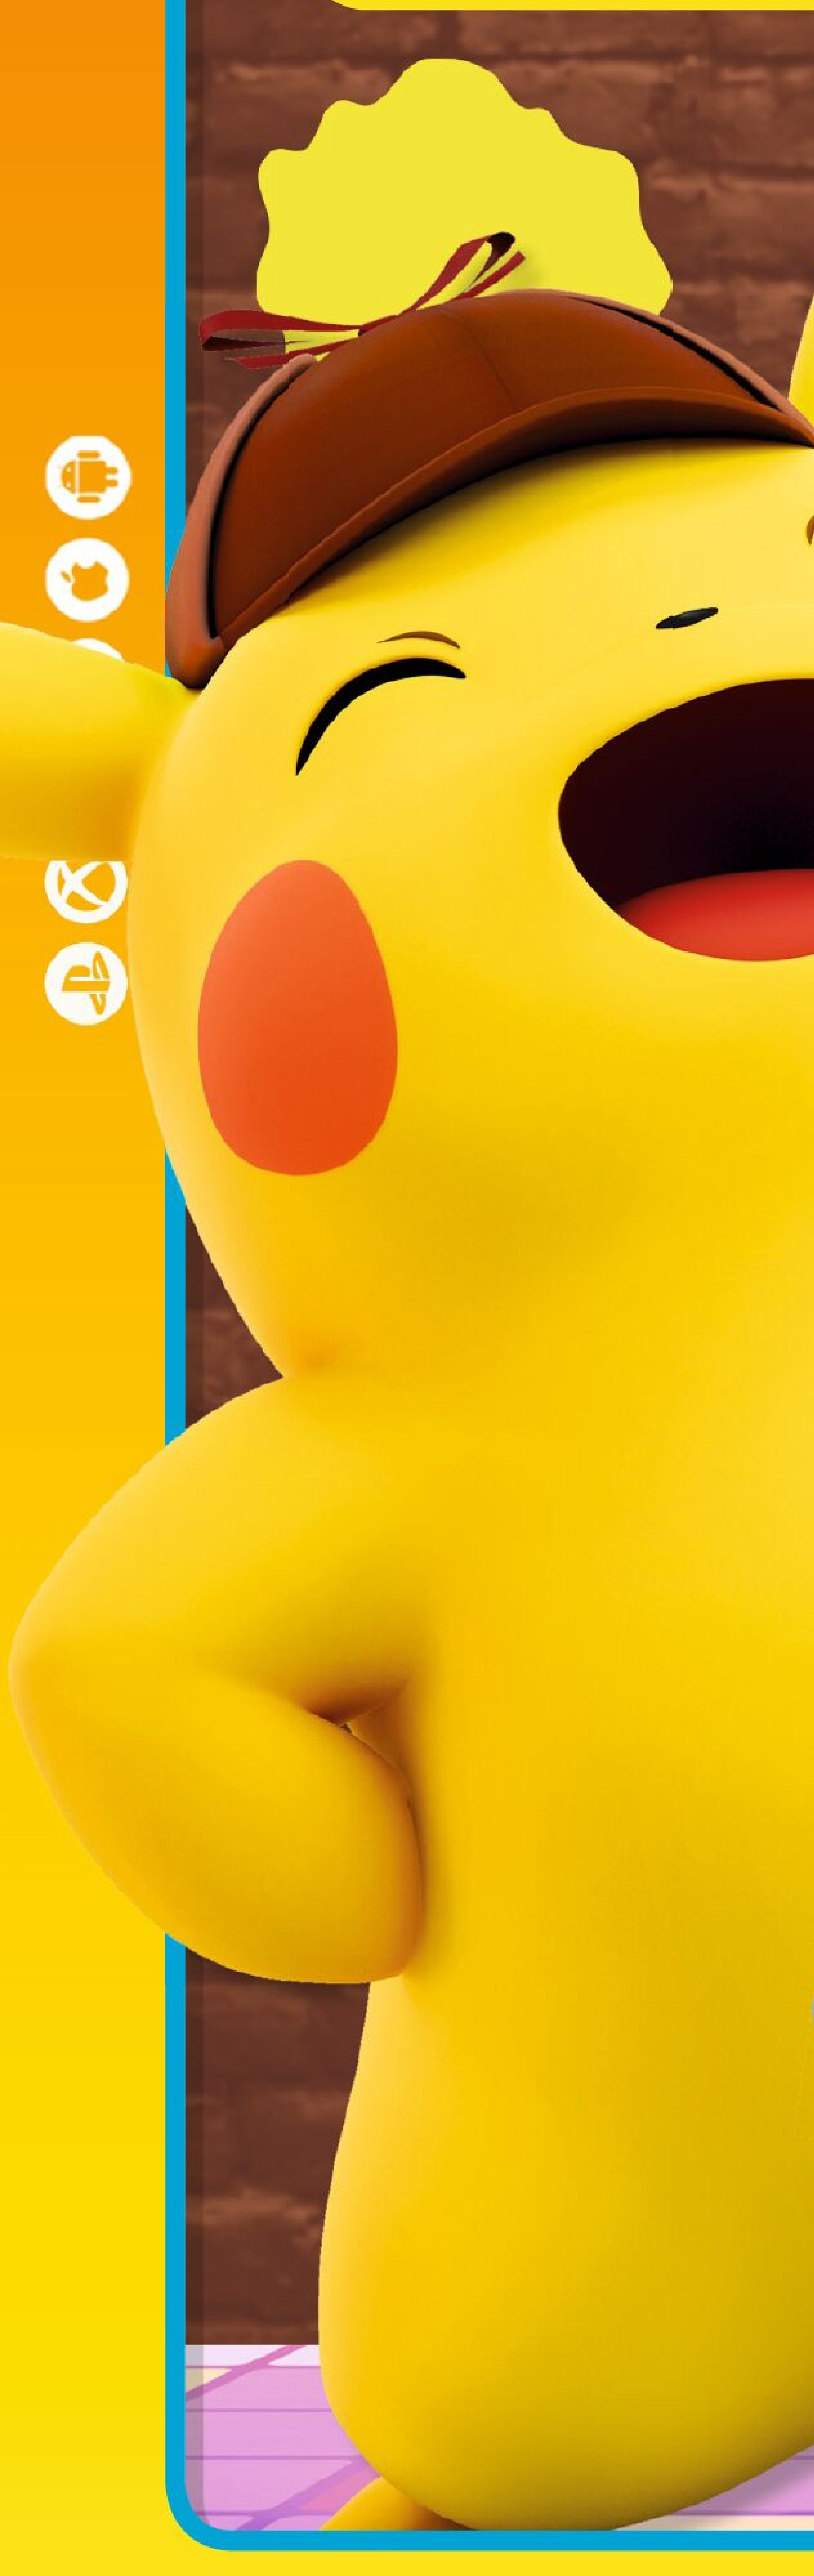
WE LOVE DETECTIVE PIKACHU™

WE JUST CAN'T WAIT TO PLAY DETECTIVE PIKACHU RETURNS!



RYME CITY

The setting for **Detective Pikachu** was built on the idea that people and **Pokémon** should work together instead of battling. This idea is still a unique one for the **Pokémon** series and so makes it really memorable!

POKÉMON DAY JOBS

As there's no battling, we get to see **Pokémon** living side-by-side with people. **Ludicolo** serves coffee, **Timburr** helps on building sites, and **Yanma** works as a camera drone. It's great to see them doing something different!

SOLVING MYSTERIES

Solving puzzles is always fun and that's doubled when solving them with **Pokémon**! Gathering clues and cracking the cases in **Detective Pikachu** is super satisfying every time.

POKÉMON KNOWLEDGE PAYS OFF

If you've read your Pokédex carefully, you can put your knowledge to use! Actually knowing about **Pokémon** behaviours and types can help solve some of the game's puzzles!

WHAT TO DO:

1. Prep your pumpkin by cutting off the lid and scooping out the insides – gross!
2. Carefully cut out the stencil on this page and tape it to your pumpkin. Use a skewer to poke holes into your pumpkin, following the black lines of the stencil.
3. Take off the stencil and use a pumpkin carving tool to join up all the dots, pushing away any excess pumpkin.
4. Pop a glow stick or a battery-operated candle inside your pumpkin and watch **Mario** light up the night!
